

SINGAPORE AND BRAZIL SIGN MEMORANDUM OF UNDERSTANDING TO ESTABLISH A PARTNERSHIP FOR CLIMATE ACTION

1. Singapore and Brazil signed a Memorandum of Understanding (MOU) to establish a Partnership for Climate Action in line with the Paris Agreement. The MOU was signed by Singapore's Minister for Sustainability and the Environment and Minister-in-charge of Trade Relations Grace Fu, as well as Brazil's Minister of the Environment and Climate Change Marina Silva and Brazil's Secretary of Climate, Energy and the Environment at the Ministry of Foreign Affairs Mauricio Lyrio, in the context of the 2025 United Nations Climate Change Conference (COP30).

2. Under the MOU, both countries will cooperate on climate action, including the exchange of best practices and knowledge, and cooperation on Article 6 of the Paris Agreement. Both countries will endeavour to sign a legally binding Implementation Agreement that sets out a bilateral framework for the international transfer of correspondingly adjusted carbon credits. The partnership will also explore collaboration in the voluntary carbon market and other areas to accelerate climate action, supporting Singapore and Brazil in achieving their climate targets while strengthening global climate ambition.

3. Minister Grace Fu said, "Singapore is honoured to work alongside Brazil to translate policies into real, high-integrity outcomes that benefit people, nature and communities. Our partnership demonstrates how countries can come together in a true *mutirão*, joining hands for climate action. We look forward to deepening this partnership with Brazil, and to delivering credible, real-world climate benefits together."

Factsheet on Singapore-Brazil MOU to Establish a Partnership for Climate Action

- The Memorandum of Understanding (MOU) establishes a Partnership on Climate Action between Singapore and Brazil, reflecting both countries' shared commitment to advancing climate ambition in line with the Paris Agreement. The MOU provides a framework for cooperation on climate action, including knowledge exchange and cooperation on Article 6 of the Paris Agreement. The partnership will also explore collaboration in the voluntary carbon market and other climate-related issues.
- Under the MOU, Singapore and Brazil will explore cooperation under Article 6 of the Paris Agreement, including working towards a legally binding Implementation Agreement that sets out a bilateral framework for the international transfer of correspondingly adjusted carbon credits. Both countries will work together to identify potential mitigation projects aligned with their sustainable development priorities and will support their achievement of their Nationally Determined Contributions (NDCs).
- Singapore has signed similar MOUs with other countries such as Cambodia, Colombia, Costa Rica, Dominican Republic, Fiji, Kenya, Laos, Malawi, Malaysia, Morocco, the Philippines, Senegal, Sri Lanka, and Zambia. Singapore has also progressed to sign legally binding Implementation Agreements with 10 countries: Bhutan, Chile, Ghana, Mongolia, Papua New Guinea, Paraguay, Peru, Rwanda, Thailand, and Vietnam.
