

# TECHNOLOGIES AND EQUIPMENT

## MILITARY WORKING DOGS

At the core of our operations are not just soldiers, but our loyal Military Working Dogs (MWDs). These dogs play a key role in detection, deterrence and protection, working closely with their handlers in challenging environments. If you love dogs and value trust, discipline and teamwork, becoming a dog handler offers a deeply rewarding experience built on a strong, purposeful bond.

## DIGITAL FORENSICS

Digital forensics professionals uncover and analyse evidence from devices like computers and smartphones to support criminal investigations. Using advanced tools, they recover hidden data, trace digital footprints, and present findings that hold up in court. If you're passionate about tech, problem-solving, and justice, digital forensics offers a meaningful and impactful career path.

## CLOSE PROTECTION HIGH-PERFORMANCE TACTICAL VEHICLE

Take the wheel of the close protection vehicle — a high-performance Jeep Grand Cherokee Limited 2023 built for Military Police operations. With a powerful V6 engine, 4x4 capabilities, and advanced surveillance systems, it delivers speed, stability, and situational awareness in high-threat environments. If you thrive under pressure and crave adrenaline, this is your ride.

# ANYTHING BUT REGULAR

# ABOUT MILITARY POLICE

Pride. Discipline. Honour. These values define who we are at SAF Military Police Command.

As Military Policemen, we are the guardians of discipline and enforcers of military law. We play a critical role in upholding the operational integrity of the SAF, ensuring that order is maintained both in peacetime and war. Our responsibilities span a wide range of specialised functions, from policing and security operations to ceremonial duties for MINDEF/SAF and the State.

We are a dynamic and dedicated team, united by a shared mission to uphold security and order in the SAF. Military Policemen carry out six critical lines of operations: Ceremonial, Enforcement, Security, Incarceration, Investigation, and Intelligence. From safeguarding key installations, representing the SAF at high-profile events, to being custodians of discipline, our mission is purposeful, impactful, and offers a unique opportunity to serve with distinction.

Our people are our greatest assets. We are committed to developing every individual to their fullest potential - not just as servicemen, but as leaders, teammates, and professionals. Through continuous learning and meaningful opportunities, we empower each person to grow, excel, and contribute to our shared mission.

READY DECISIVE RESPECTED

## SPECIAL OPPORTUNITIES

Joining the Military Police means taking on a role that's truly Anything But Regular. You'll engage in a unique mix of operational, security, ceremonial and investigative duties that set you apart.

Locally, you'll build specialised skills in areas like forensics and digital forensics, alongside enforcement tasks such as traffic control. You'll also be involved in prestigious ceremonies like the Guard of Honour and Changing-of-Guards at the Istana, while supporting vital security operations including close protection and safeguarding key installations.

Beyond Singapore, Military Policemen have access to exclusive training opportunities across multiple countries around the world. These global experiences broaden your skills and perspectives, preparing you to tackle diverse challenges with confidence and play a vital role in safeguarding our nation.

## OUR SIX LINES OF OPERATIONS

### CEREMONIAL — “MARCH IN HARMONY”

Ceremonial operations involve parades, guard duties, and state events carried out with precision. The Presidential Guards platoon forms the Guard-of-Honour, guards the Istana around the clock, and leads the monthly Changing-of-Guards Ceremony. Trained in silent drills, they also perform at the National Day Parade and international events, representing SAF's professionalism.

### INTELLIGENCE — “DISCOVER THE UNKNOWN”

Intelligence operations entail the collection and analysis of criminal intelligence to support mission planning and threat assessment. Intelligence Officers handle sensitive data, identify risks, and provide recommendations based on intel, contributing to mission success through foresight and preparation.

### ENFORCEMENT — “ENFORCE AND UPHOLD”

Enforcement operations entail maintaining discipline and law within the SAF, including routine spot checks across SAF sites, vessels and personnel, and conduct anti-riot duties. In addition, we conduct traffic enforcement operations, deserter operations, and joint missions with Military Working Dogs. Enforcers play a critical role in preserving operational readiness and good conduct across SAF units.

## OUR SIX LINES OF OPERATIONS

### INVESTIGATION — “SEEK THE TRUTH”

Investigation operations entail uncovering facts through evidence gathering, interviews and case development. Being the independent investigative agency for MINDEF/SAF, Military Policemen investigate military and civil offences in both peace and wartime. They uphold truth and justice through professional and impartial investigations, assisted by forensic experts, well versed in Digital Forensics, Truth Assessment, and Crime Scene Investigation.

### INCARCERATION — “REFORM, REHAB, REINTEGRATE”

Incarceration operations involve managing the SAF Detention Barracks, the only military custodial facility. Military Policemen help rehabilitate detainees for reintegration, using both physical skills like Control and Restraint and soft skills to maintain a disciplined and supportive environment.

### SECURITY — “PROTECT AND SAFEGUARD”

Security operations involve protecting key SAF assets, bases, and personnel. Military Policemen provide close protection, assess threats, and enforce strong security measures. Trained for rapid response, they are the frontline of SAF's daily security efforts.

## COMMONLY ASKED QUESTIONS

### HOW DOES THE SAF MILITARY POLICE SUPPORT ARMY OPERATIONS?

The SAF Military Police supports Army operations through six lines of operations: Ceremonial, Enforcement, Security, Incarceration, Investigation, and Intelligence. Staying highly operational at all times, our mission-critical roles demand strong teamwork, forging deep camaraderie within the formation.

### WHAT SKILLS WILL I BE ABLE TO LEARN WHEN I JOIN THE MILITARY POLICE?

You'll develop a wide range of skills in enforcement, investigation, security, and leadership; many of which are directly transferable to careers in policing and the wider security industry. Alongside operational expertise, you'll build resilience, discipline, and teamwork that stay with you for life.

### WHAT ARE THE CAREER DEVELOPMENT OPPORTUNITIES AS AN MP REGULAR?

MP Regulars enjoy exclusive local and overseas training beyond the standard Army curriculum. With roles in command, specialised and instructional tracks, you'll build deep expertise in security and enforcement that will enhance your professional growth within and beyond the SAF.
