OUR SINGAPORE
ARMY
READY DECISIVE RESPECTED

ABOUT ARMY INTELLIGENCE

Army Intelligence: Be Our Eyes & Ears, Be Our Edge

You will be trained to conduct reconnaissance, uncover vital information, sense-make and deliver analysis to shape operations. You will gain skills in surveillance and analysis. The intelligence you provide supports decisive decisions; intelligence enables successful operations.

Why Army Intelligence?

We are the First Line of Defence. We collect, fuse and analyse information critical for operations. Together, we will contribute to safeguard the security and sovereignty of our Singapore.

What You Will Do

You are responsible to deliver tactical-operational intelligence. Our operations range from ground reconnaissance to the deployment of tactical unmanned aerial vehicles (UAVs). From deep analysis of data to the development of actionable assessments to enable operations. Lethality begins with Intelligence.

Who We're Looking For

We are looking for leaders who are bold, adaptable, with a strong yearning to serve. You will be part of a community that thrives on teamwork, creativity, and purpose.

We are the First Line of Defence – and Anything but Regular.

UNIQUE OPPORTUNITIES

OVERSEAS COURSES

CPT Chloe Tan Ming Jeen

CPT Chloe (Centre) attending the US Army's military intelligence course.

I am thankful for my career and opportunities offered by our Army. I was awarded an Army scholarship to study in Australia and had the opportunity to represent our Army at the US Army's Military Intelligence Basic Officer Leader Course (MIBOLC). My time with Army Intelligence was uplifting, as it provided me with life experiences and opportunities that I otherwise would not have had.

CROSS-SERVICE POSTINGS

MSG Ng Yun Sheng

MSG Ng Yun Sheng (Front row, first from left) during an RSAF overseas training exercise.

I was entrusted with the opportunity to serve as the Company Sergeant Major in an RSAF Squadron. It was an eye-opening experience. This opportunity had deepened my professional skills and expanded my network. It also allowed me to appreciate the importance and strength of relationships. I am thankful to Army Intelligence for the opportunity to lead, grow, and contribute to our mission!

ROLES AND SPECIALISATIONS

INTELLIGENCE ANALYST

Delivers critical insights to decision-makers to enable operations.

INTELLIGENCE FUSION COMMANDER

Transforms information into actionable intelligence with data analytics, AI, and computer vision.

ROLES AND SPECIALISATIONS

SENSE-STRIKE ISR COMMANDER

Enables precise and effective targeting through accurate intelligence.

COMBAT INTELLIGENCE COMMANDER

Employs advanced sensors and tactical skills to gather vital information.

COMMONLY ASKED QUESTIONS

IS ARMY INTELLIGENCE, AND THE DIGITAL AND INTELLIGENCE SERVICE (DIS) ON THE SAME TEAM?

Yes, we are! Together, we contribute to the same mission, to safeguard Singapore's sovereignty and way of life. While we both perform Intelligence functions for the SAF, Army Intelligence conducts operational-tactical intelligence operations to enable our Army's mission outcomes.

WHAT WILL MY WORKSPACE BE LIKE? BEHIND SCREENS, OR OUT IN THE FIELD?

The world is our office! You could be deployed in both local and overseas settings, perhaps somewhere in the city to support peacetime security operations, or participate in overseas exercises. Wherever we are, we will deliver intelligence for our Army!

WHAT INTERESTING THINGS DO WE ACTUALLY GET UP TO EVERYDAY?

We use cool tech to collect information. We use advanced software and algorithms to make sense of the information and deliver insights to support analysis, decision-making and operational planning. We enable outcomes! You will also attend local or overseas courses and programmes to grow and strengthen your professional skills!
