

OUR ARMoured PLATFORMS

Armour is the Decisive force of our Army. Our firepower, mobility, protection and situational awareness offer a potent package to defeat any enemy. As part of the Armour formation, you'll operate state-of-the-art platforms such as the Leopard 2SG Main Battle Tank and Hunter Armoured Fighting Vehicles (AFV).

The Leopard 2SG (L2SG) Main Battle Tank combines superior firepower, mobility and protection. It is equipped with a 120mm smoothbore gun and stabilised fire control system capable of delivering precise and devastating firepower.

The Hunter AFV is Singapore's first fully digitalised platform and is equipped with a remote-controlled weapon system, a 30mm cannon, anti-tank guided missiles, an integrated combat cockpit and enhanced capabilities. The Hunter AFV enables its crew to engage threats with speed and precision.

UNIQUE OPPORTUNITIES

Armour offers you unique opportunities to master machinery and weaponry. With progressive training on the realistic simulation systems, you master the armoured platforms to operate competently and safely.

Armour develops our people to their fullest potential. You will be exposed to many opportunities to learn and grow, locally and overseas.

Overseas trainings include countries like Germany and Australia, where you will train in vast, challenging terrains, conduct live-firing exercises, and participate in complex training scenarios — building confidence, teamwork, and operational readiness.

There will also be overseas courses with partner militaries where you will receive valuable insights in leadership, tactics and military professionalism.
