

YOUTH ACTION CHALLENGE

ABOUT

This is for all youths looking to make meaningful change.

Focusing on the important things like environment, jobs & future of work, and societal issues, the Youth Action Challenge (YAC) is where like-minded youths from different backgrounds come together in teams to brainstorm and pitch their ideas for a better future.

Now, we're at the YAC Summit with the final 12 teams, as they pitch their ideas to industry experts to receive funding and make their ideas a reality.
