WHEN POTENTIALS AND POSSIBILITIES

POP

Every child's journey begins with potential. Discover how these ITE graduates turned their passions into purpose, their skills into careers, and possibilities into realities.

IRENE LAI

Centre Supervisor
Presbyterian Community Social Services –
PCS Cedar Tree AAC (Care) @ Potong Pasir 108

- Nitec in Community Care & Social Services
- Work-Study Diploma in Rehabilitation Care

A CALLING DISCOVERED THROUGH CARE

Every child deserves the opportunity to discover where they can shine. For Irene, that opportunity came through ITE College East. Guided by caring mentors and enriched by real-world experience, she found her calling in supporting seniors and improving lives.

Today, as a Centre Supervisor, she leads with compassion and purpose. Irene's journey is a reassuring reminder that success is not defined by one pathway. Given the right learning environment, one can build a meaningful career, and touch many lives along the way.

ITE helped me discover not just a career, but a purpose. The support from my teachers and mentors gave me the confidence to grow and make a difference in the lives of others."

FILBERT HO

Data Centre Inventory & Asset Technician
Microsoft Operations

- Nitec in Logistics Services
- Work-Study Diploma in Logistics & Supply Chain Management

FROM POTENTIAL TO PURPOSE

Every parent hopes to see their child excel beyond their fullest potential. For Filbert, that journey began at ITE. Through practical learning and real-world industry experiences, he grew in confidence, capability and leadership.

Today, he supports data centre logistics operations at Microsoft and has contributed to solutions adopted across the region. His success is a reminder of possibilities through learning that connects the classroom to the workplace. Filbert did not prepare for a job, he built the foundation to thrive in a high-growth sector.

ITE gave me opportunities to learn by doing, compete with the best and gain real industry experience. Those experiences prepared me to contribute confidently in a global organisation today."

ALOYSIUS NG

Associate Value Realisation Analyst
Lumen Technologies Singapore Pte Ltd

- Higher Nitec in Cyber & Network Security
- Work-Study Diploma in Cyber Security & Forensics

A PASSION POWERED BY POSSIBILITIES

What began as a passion for cybersecurity became a rewarding career for Aloysius. Through his ITE journey, he built not only technical expertise, but also the confidence to excel, earning certifications, competing on international stages and gaining valuable global exposure.

Today, he drives cybersecurity and business initiatives across the Asia-Pacific region at Lumen Technologies. His story shows that when a student's interests are nurtured and supported, they are enabled to grow into meaningful careers and a future filled with possibilities.

ITE taught me that success comes from continuously learning and challenging yourself. The skills and confidence I gained opened opportunities I once thought were beyond my reach."

KHAIRULAMIRIN B SALAMON

M&E Coordinator
Keong Hong Construction Pte Ltd

- Higher Nitec in Civil & Structural Engineering Design
- Work-Study Diploma in Mechanical & Electrical Services Supervision

PERSEVERANCE THAT BUILT A FUTURE

Balancing studies, work and family responsibilities, Khairulamirin proved that determination can overcome even the toughest challenges. Through ITE's Work-Study Diploma, he gained industry experience while excelling academically and providing for his family.

Today, he is an M&E Coordinator contributing to major HDB developments and shaping Singapore's built environment. His journey is a powerful reminder that with the right support, practical skills and unwavering perseverance, every learner can build a brighter future and achieve their aspirations.

ITE Work-Study Diploma allowed me to learn, work and provide for my family at the same time. It proved that with determination and the right support, every challenge can become an opportunity."

TECHNOLOGY BLOCK

LEVEL 1

A Logistics Technology Hub (T01-27)

Explore Industry 4.0 logistics through smart technologies, automation and digital twin simulations, giving students hands-on experience in data-driven operations and integrated logistics processes.

Higher Nitec in Logistics & Supply Chain Management
WSDip in Integrated Supply Chain Management

LEVEL 2

B Plant for Authentic Learning (T02-03)

Featuring scaled-down industrial process units and a control room, this facility offers authentic training, enabling students to experience real-world plant operations and panel management roles.

Higher Nitec in Chemical Process Technology

LEVEL 2

C Mechanical Skills Hub (T02-13/16)

Featuring industry-grade tools and smart technologies, this Hub provides hands-on training in mechanical engineering, equipping students with practical skills for modern engineering environments.

Higher Nitec in Mechanical Engineering

LEVEL 3

D Robotics & AI Lab (T03-09)

A hands-on learning space, this Lab provides the avenue for students to design, build, program and test robots while exploring robotics, automation and AI technologies.

Higher Nitec in Electronics Engineering

LEVEL 4

E Data Centre Lab (T04-15)

In collaboration with industry leaders, this Lab provides hands-on training and internships in data centre infrastructure and operations, equipping students for careers in the growing digital economy.

Higher Nitec in Business Information Systems
Higher Nitec in Cyber & Network Security
Higher Nitec in IT Systems & Networks
WSDip in Data Centre Infrastructure & Operation

LEVEL 4

F Extended Reality Centre (T04-17)

Featuring immersive extended reality technologies, this Centre provides hands-on learning where students explore innovative digital solutions while developing creativity, collaboration and industry-relevant skills.

Higher Nitec in IT Applications Development
Higher Nitec in IT Systems & Networks

LEVEL 5

G Security Command Centre (T05-21)

The Centre equips students with skills in surveillance, AI-powered monitoring and emergency response systems, supporting real-world safety applications and Singapore's Smart Nation vision.

Higher Nitec in Security System Integration

LEVEL 6

H ITE Centre for Healthcare Simulation Training (T06-19/21)

Equipped with high-fidelity mannequins, this Centre integrates theory and practice, preparing nursing students to confidently handle various medical scenarios through realistic and immersive training.

Higher Nitec in Nursing

BUSINESS BLOCK

LEVEL LG

I Landscape Courtyard (BLG-32)

At Courtyard, students train in Singapore's landscape sector, using digitalisation, mechanisation and advanced technology to develop professional, industry-relevant skills within a holistic and authentic learning environment.

Higher Nitec in Landscape Management & Design

LEVEL LG

J Logistics Training Centre (BLG-40)

At the Centre, students gain hands-on training in logistics and supply chain management, bridging academia & industry and developing the expertise required to thrive in a fast-paced global industry.

Higher Nitec in Logistics and Supply Chain Management

LEVEL 1

K Integrated Lifestyle & Wellness Hub (B01-01/12)

Featuring four training labs, this Hub provides authentic hands-on experience in beauty, wellness, cosmetics, hairdressing and retail, equipping students with industry-ready skills for career success.

Higher Nitec in Beauty & Wellness Management
Higher Nitec in Hairdressing & Salon Management
Higher Nitec in Retail & Online Business

LEVEL 1

L Airport Premium Lounge & Cabin Training Facility (B01-16/17)

Equipped with authentic cabin and lounge setups, students gain hands-on experience in aviation services, preparing them to deliver professional customer care and service excellence.

Higher Nitec in Passenger Services

LEVEL 1

M Community Care Training Centre (B01-33)

At the Centre, students gain practical skills in rehabilitation and daily living support, focusing on independence, care and community health to make a meaningful difference in people's lives.

Higher Nitec in Community Care & Social Services

LEVEL 2

N Opticianry Retail & Training Lab (B02-01)

The Lab is where students hone essential skills in eye care, from lens crafting to frame fitting, preparing them to provide professional optical services as future Opticians.

Higher Nitec in Opticianry

LEVEL 5

O Sustainable Built Environment Hub (B05-11/16)

This Hub trains students in sustainable practices for the Architecture, Engineering, and Construction (AEC) industry, featuring smart technologies and a specialised lab for elevators, escalators and moving walkways research.

Higher Nitec in Facility Management & Engineering
Higher Nitec in Architectural Technology
Higher Nitec in Civil & Structural Engineering
Higher Nitec in Integrated Mechanical & Electrical Design
Higher Nitec in Vertical Transportation

GOODIES
