LEE KUAN YEW GOLD MEDAL

The Lee Kuan Yew Awards for ITE students were instituted in 1999 through the sale proceeds of the special edition of the memoirs of Singapore's first Prime Minister, Mr Lee Kuan Yew, titled, The Singapore Story. A sum of \$555,000 was donated to ITE for the establishment of the awards.

The Lee Kuan Yew Gold Medals for ITE students are aimed at promoting technical education by giving greater recognition to the achievements of ITE students and trainees.

Lee Kuan Yew Gold Medals are awarded to the top graduates from ITE College Central, ITE College East and ITE College West, who have excelled in their course of study and co-curricular activities, and made contributions to an enriching College life.

LEE KUAN YEW GOLD MEDAL

TEO GEK KHIM AZALEAGRACE *Higher Nitec in Interactive Design*

DESIGNING HER FUTURE

While pursuing her *Nitec* in Urban Greenery & Landscape, Azaleagrace began working part-time at a web solutions start-up. There, she quickly learned to build web and mobile apps using a no-code platform. Witnessing the positive impact of design on clients' lives, she recognised her true calling and chose to advance to a *Higher Nitec* in Interactive Design.

Azaleagrace demonstrated a genuine passion for her studies, graduating with a perfect GPA of 4. She excelled in a project developing an AI-assisted co-writing platform, where she led the UI/UX design of key features aimed at improving Indonesian students' writing skills. She also trained content writers to enhance the AI model's performance and championed the app's multi-language functionality.

Her contributions extend beyond school. Azaleagrace actively serves the community as Secretary of the HCSA Dayspring Owena Alumni Group, which supports women in recovery. She helps plan events, manage logistics, and co-create art pieces for fundraising auctions. These are not merely token efforts; she gives her time generously, drawing from experience the importance of having a community when one feels alone. She has also volunteered at events such as Tapestry of Love for Women's Day and spoken at community fundraisers, using her voice to advocate for vulnerable groups with dignity and empathy.

PILLAR OF SUPPORT

"I am grateful for the support at ITE, especially from my course manager, Mr Kevin Chin. He encouraged and empowered me with opportunities to participate in various events. Being more involved in school activities made me realise my capacity to contribute and boosted my confidence and communication skills."

AFTER ITE

Azaleagrace is currently enrolled in the Diploma in Media, Arts and Design at Singapore Polytechnic, specialising in Experience and Product Design.

TOP ACHIEVEMENTS

- At the M1 Asia Pacific Golf 2024 fundraiser, Azaleagrace's heartfelt sharing about her difficult journey helped raise money for the ITE Education Fund.
- As a Harmony Champion, she co-led the 'Rise Above Racism Roadshow 2024', engaging over 200 students in conversations on racial harmony.
- At ITE Student Leaders Forum 2024, Azaleagrace narrated her College's closing presentation and led her team's PR, photography, and videography efforts.
- As Vice-President of Yoga Club, she successfully managed yoga sessions, team-building events, and CCA roadshows.

LEE KUAN YEW GOLD MEDAL

MOSES HEE JUN YAO

Higher Nitec in IT Applications Development

AGAINST ALL ODDS

Grappling with grief after losing his father during secondary school and facing academic setbacks, Moses found a new sense of purpose at ITE. With unwavering determination, he excelled in his IT Applications Development course. He has graduated with a perfect GPA of 4.0, 13 distinctions, and earned a place on the Director's List two years in a row. For his excellence, Moses is named Valedictorian of the Class of 2025 and recipient of the Lee Kuan Yew Gold Medal - an honour reserved for the most outstanding ITE graduates.

Moses' impact stretches well beyond academic success. As leader of the Zero Food Waste team, he guided his group to win a Silver Medal at the 2023 International Exhibition for Young Inventors, standing out against over 130 teams from nine countries. His team also secured third place in the Climate Change - Zero Waste Competition and a Silver Medal at the ITE Green Ambassador Awards. Passionate about sustainability and community service, Moses drove campus-wide recycling initiatives and organised intergenerational activities, proving that leadership is as much about heart as it is about skill. During his internship at the National University of Singapore, Moses showcased his technical prowess by automating workflows and creating data dashboards - earning a full-time job offer and a sponsored Professional Certificate from NUS SCALE.

His inspiring journey of grit, innovation, and compassionate leadership not only rewrote his own future but also lights a path for others facing challenges.

CODE OF SUCCESS

"Every achievement begins as a dream - an idea fueled by passion, dedication, and unwavering belief. It's about the resilience to rise after every setback and the determination to keep moving forward. This moment, for me, is not the finish line but a milestone in a journey filled with endless possibilities."

AFTER ITE

Moses is pursuing a Diploma in Information Technology at Temasek Polytechnic. He plans to obtain a degree in computing and return to the National University of Singapore as an Information Systems Analyst.

TOP ACHIEVEMENTS

- Recipient of the Lee Kuan Yew Model Student Award (2025).
- Recipient of the ITE Community Scholarship (2023 & 2024).
- Active leader in ITE's Creative Community Club, guiding peers in project competitions.
- Organised community outreach efforts such as Happy Hours with Seniors, promoting digital literacy and intergenerational bonding.

LEE KUAN YEW GOLD MEDAL

DAMIEN KOH WEN HAO

Higher Nitec in Sport Management

LEADING WITH PURPOSE

Raised in a single-parent household, Damien shouldered heavy responsibilities early in life. These experiences developed his sense of empathy and desire to support others. It was initially challenging for him to adapt to life at ITE, but it was also at ITE that he found his voice and purpose. Through academic excellence, student leadership, and service to the community, Damien grew into a compassionate leader who uses every opportunity to lift others.

As President of the ACE Club, he led initiatives that connected with the vulnerable - both within campus and outside - proving that leadership is about presence and impact, not position. Whether spearheading youth sustainability projects, advocating for inclusive community events, or mentoring peers, Damien consistently turns his challenges into opportunities for change. He aspires to be a lawyer and is focused on giving back. He is determined to be a voice for those who feel unheard, and a guide for others walking a path he knows well.

EMPOWERING CHANGE

"My commitment to giving back to the community that supported me reflects the power of resilience. It also shows my desire to make a difference. I hope my journey inspires a new generation of youths to believe in their potential and pursue their dreams with confidence."

AFTER ITE

Damien is pursuing a Diploma in Common Business at Nanyang Polytechnic. He aspires to become a legal solicitor, motivated by his desire to advocate for those marginalised in society.

TOP ACHIEVEMENTS

- As President of the ACE Club in 2024, Damien demonstrated initiative and a strong commitment to community engagement.
- For his outstanding academic performance and exemplary conduct, he received the 21st Century Star Award 2024 and the Edusave Character Award 2024.
- Damien played a key role in an international student engagement initiative - together with 19 other School of Business students, he hosted students from Vietnam during a two-week inbound programme in Singapore.
- He collaborated with fellow students to develop "CW Lite", an app prototype aimed at reducing carbon emissions in Singapore.
- In 2024, Damien participated in the HSBC NYAA ITE-SMEs Sustainability Initiative, collaborating with industry experts like Crunch Cutlery and Seroja to develop eco-friendly plates from fruit waste. He also helped forge a partnership with NUS to support the project's research efforts.

TAY ENG SOON GOLD MEDAL

The Tay Eng Soon Scholarship Fund was established in November 1993, in honour of the late Dr Tay Eng Soon. Dr Tay Eng Soon was the Chairman of ITE (and the former Vocational & Industrial Training Board) and Minister-in-Charge of technical and polytechnic education from 1981 to 1993. One of the objectives of the Fund is to provide medals and/or prizes to ITE students.

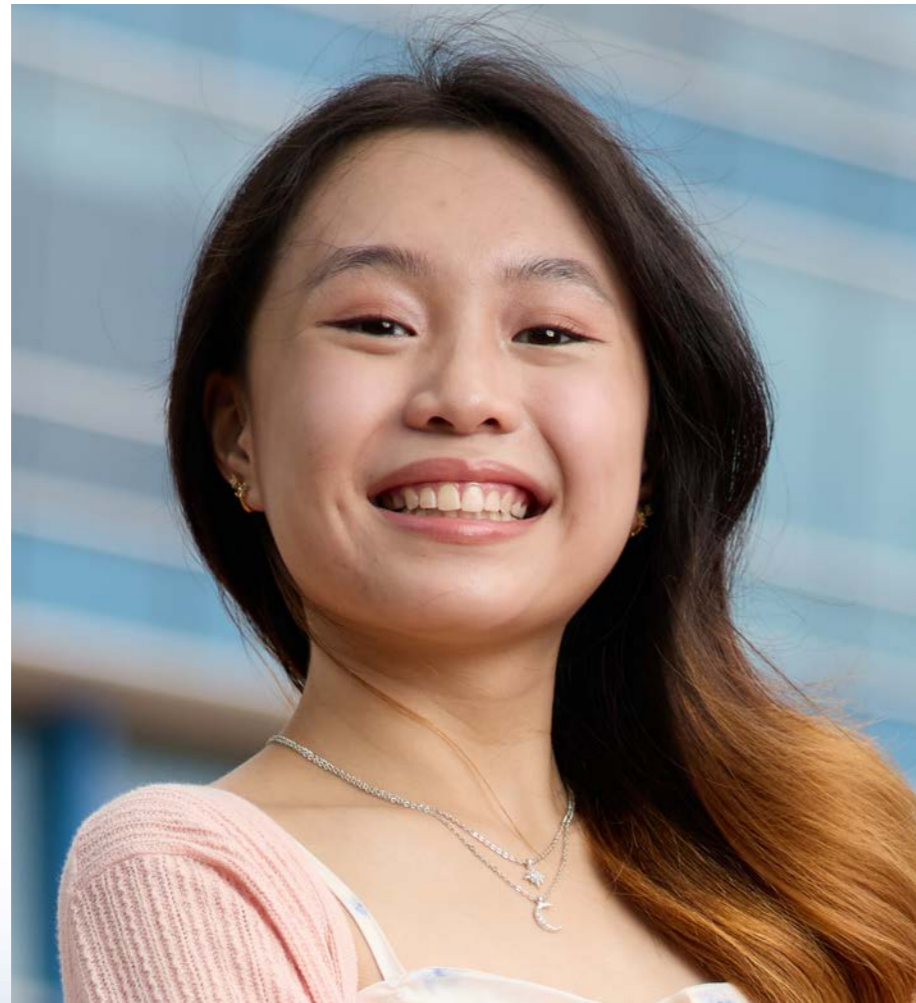

Tay Eng Soon Gold Medals are awarded to the top graduates from ITE College Central, ITE College East and ITE College West, who have achieved excellent course performance, participated actively in co-curricular activities and contributed to the well-being and development of their College.

TAY ENG SOON

GOLD MEDAL

SANTOS RACHAEL HAM

Higher Nitec in Electronics Engineering

ROUTE TO SUCCESS

Though she qualified for Secondary 5 with strong GCE Normal (Academic) results, Rachael was disheartened by her performance in English and doubted her chances in the O-Levels. Her parents, strong advocates of ITE, urged her to look beyond grades and consider where her strengths truly lay. After researching IoT and applied engineering, Rachael chose ITE through the Direct-Entry Scheme to Polytechnic Programme (DPP), a decision she credits as life-changing.

At ITE, Rachael flourished as a high achiever in academics, a student leader in community service, and a driving force in sustainability and tech-for-good projects. She was one of five ITE students selected to represent Singapore at the 2024 Southeast Asia Youth Leadership Program - a 22-day leadership and cultural exchange programme in the United States, where she engaged in workshops on social entrepreneurship, cross-cultural communication, and civic responsibility. Rachael also led her team to first place in the IPC Soldering Competition, which tested precision and technical skills in electronics assembly, and contributed as hardware designer in the EnviroSense IoT System, which won third place in the ITE Green Innovation Award for helping monitor environmental conditions in real time. Beyond competitions, she was the project leader for a Community Fridge initiative, using IoT technology to improve food accessibility for needy residents. This project won the ITE Lee Kuan Yew Technology Award 2025. Through her active involvement in the Rotaract Club, she also coordinated community events, mentored peers, and reached out to the elderly and underprivileged.

NUGGETS OF WISDOM

"My parents have taught me an important life lesson – the path to success is varied – we just need to be courageous enough to pick the one best for us without prejudice. ITE gave me the space to step out of my comfort zone. I learnt to lead, to serve, and to speak up - finding my voice and shaping my identity."

AFTER ITE

Rachael is pursuing a Diploma in Electronic and Computer Engineering at Ngee Ann Polytechnic. She aspires to earn a degree in Computer Science and build a career in the electronics or IT industry.

TOP ACHIEVEMENTS

- Represented Singapore in the 2024 Southeast Asia Youth Leadership Program (USA).
- Led award-winning team in IPC Soldering Competition (1st Place).
- Key contributor to EnviroSense IoT System – Green Innovation Award (3rd Place).
- Project leader for IoT Community Fridge collaboration with Cheng San Community Club.

TAY ENG SOON

GOLD MEDAL

JOLENE CHUA WEN SIN

Higher Nitec in Event Management

GROWING THROUGH GIVING

Jolene's dedication to community service shines through her active involvement in various initiatives. She found deep fulfillment helping elderly residents redeem online vouchers at the CDC Voucher 2024 Launch and contributed to events such as Marine Parade Gives Back – Home Cleaning for Seniors 2024, the Formula 1 Singapore Grand Prix 2023, and the Siglap National Day Parade Carnival 2023. A passionate photographer, she also shared her skills by teaching basic photography at South East CDC's 15th Seniors' Learning Camp.

Through her event management studies and diverse volunteering experiences, Jolene has grown into a confident and capable individual. Her internship at a social enterprise saw her crafting social media strategies, exploring historical archives, developing cultural tours, and managing web content - demonstrating her adaptability and eagerness to learn. As President of Writers' Room and Vice-President of the Photography Club, Jolene's leadership and collaborative spirit continue to shine among her peers.

ROLLING WITH IT

"My ITE journey has been a rollercoaster – filled with ups, downs, thrills, and moments of doubt. With the strong support of my lecturers and friends, I've embraced every challenge. It has taught me that stepping outside my comfort zone may be scary, but it's where most growth and reward happen!"

AFTER ITE

Jolene is pursuing a Diploma in Business at Temasek Polytechnic.

TOP ACHIEVEMENTS

- Jolene led her team in the 2024 Young Trailblazers competition, where their "iCarrot" app, which uses a points system to encourage community garden participation, won the Special Merit Award in the tertiary category.
- She served as a presenter and stage representative at the ITE Student Leaders Forum 2023. She further honed these skills as Team Lead, stage presenter, and a member of the media team at the ITE International Student Seminar 2024.
- In recognition of her ability to produce engaging social media content, she clinched the Merit Award in her College's Influencer Challenge 2023.
- An ace student, she graduated with a perfect GPA of 4.0, making the Director's List in 2023 and 2024. She is the proud recipient of the ITE Lee Kuan Yew Model Student Award 2025, MOE EAGLES Award 2024, ITE Community Scholarship 2023 and ITE College East Service Star (Gold) 2024.

TAY ENG SOON

GOLD MEDAL

THAM XIU YU

Nitec in Western Culinary Arts

COOKING UP CHANGE

Xiu Yu grew her passion for leadership and helping her community during her time at ITE. With the support of her lecturers, she discovered many opportunities to take on leadership roles. As Chairperson of her Class Exco, she led her class to win the Best Class Award in 2019, and later served as Deputy President of the ACE Club, where she organised and hosted key college events, including the ACE & Champions Clubs Investitures. She also played a significant role in the Singapore Junior Chef's Club Committee and was part of the ITE School of Hospitality Culinary's Team that represented Singapore in Hong Kong.

Inspired by her family's commitment to giving back, Xiu Yu realised that even small actions can make a big difference for those in need. In December 2024, she broadened her impact globally through community projects in Sabah, under the Youth Expedition Project.

Throughout her journey, Xiu Yu faced challenges and there were times when she felt like giving up, but the constant support from her family and lecturers kept her going. Though she initially doubted her academic potential, the encouragement and guidance she received helped her overcome setbacks and embrace new experiences with confidence.

BAKING A BETTER TOMORROW

"Now, as I pursue my Technical Diploma in Culinary Arts with Restaurant Management, I aspire not only to hone my skills but also to inspire others and contribute positively to society. I am looking forward to opening a small bakery in the future, where I hope to create a space that can make a positive impact in the community, helping those who require assistance while I pursue my passion."

AFTER ITE

Xiu Yu has progressed to ITE's Technical Diploma in Culinary Arts with Restaurant Management course.

TOP ACHIEVEMENTS

- Despite having to juggle her studies, CCAs and community service commitments, Xiu Yu maintained a perfect GPA of 4.0.
- As Deputy President of the ACE Club, Xiu Yu led the MOE-ITE Adopt a Block community project where students from various institutions worked with residents to reduce water and electricity consumption, while promoting recycling and green efforts.
- She also played a pivotal role in the Rose of Peace Harmony Champions initiative, promoting social cohesion and multicultural harmony through a series of events like ITE Staff Appreciation Days and Brickland Children's Day, spreading messages of love and peace with roses.

THE NGEEN ANN KONGSI GOLD MEDAL

The Ngee Ann Kongsi Gold Medals are awarded to the top graduates from ITE College Central, ITE College East and ITE College West, for their outstanding course performance, active participation in co-curricular activities and contributions to the Colleges.

The gold medals, first presented in 2018, are funded by The Ngee Ann Kongsi, a non-profit Teochew philanthropic foundation actively involved in educational, cultural and charitable activities in Singapore. Over the years, the Kongsi has made significant contributions towards the enrichment of Singapore society and its education scene.

THE NGEEN ANN KONGSI GOLD MEDAL

KATHERINE TAN PEI LING

Higher Nitec in Financial Services

BELIEVE IN YOURSELF

Growing up, Katherine faced tough circumstances which instilled in her a strong sense of independence. Despite working part-time as a bubble tea barista to help with living expenses, she prioritised her studies, working only once a week during term time, and taking a break when exams were near.

Still, it was challenging juggling work, studies and various extracurricular commitments, such as hosting overseas exchange students, promoting financial literacy and helping the elderly recognise scams. At times, Katherine felt exhausted and overwhelmed. But she reminded herself that these periods were temporary, and with support from her friends, she persevered.

Through sheer grit and a commitment to excellence, Katherine achieved academic success and recognition. She was awarded the Institute of Banking and Finance (IBF) Scholarship, achieved several awards, and represented ITE both locally and overseas in dialogues and student events. Katherine is testament that one can shine if you believe in yourself.

ALL ABOUT THE PROCESS

"Time is precious, use your time wisely. We will be graduating with the same certificate but it is what you go through and what you want to achieve that matter more."

AFTER ITE

Katherine is currently pursuing the Diploma in Banking & Finance at Nanyang Polytechnic. She hopes to pursue a degree in business upon graduation.

TOP ACHIEVEMENTS

- Katherine was awarded the IBF Scholarship in 2024 and was appointed the Guard-of-Honour for the scholarship presentation award ceremony. During the Ceremony, she was also one of the students selected for a chat with Deputy Prime Minister, Mr Gan Kim Yong.
- Katherine represented ITE and showcased two award-winning projects and a game booth at the annual Singapore Fintech Youth Chapter Fintech Day in 2024. The event saw participation from all local polytechnics and universities.
- She led her team to develop a GenAI Chatbot that could answer common school or course-related queries. Their project won the Innovative Award at the Lee Kuan Yew Technology Award competition in 2024.
- An articulate and confident speaker, Katherine shared her insights on Budget 2024 and the ITE Progression Award with leading economist, Mr Song Seng Wun, in a video by CGS International Securities Singapore Pte Ltd.

THE NGENE ANN KONGSI GOLD MEDAL

NAIEMA MAISARAH BINTE RUMAIZI

Higher Nitec in Passenger Services

FINDING HER FOOTING

Naiema's education journey took an unexpected turn after her O-Levels. Despite securing an Early Admissions Exercise offer to a polytechnic course in Hospitality and Tourism Management, she was unable to progress due to her final grades. Disappointed but undeterred, she enrolled in the *Higher Nitec* in Passenger Services course to pursue her passion for the tourism and service industry.

Initially, Naiema battled feelings of self-doubt and uncertainty. But through the unwavering support of her lecturers and the camaraderie of her peers, she gradually found her confidence. She blossomed into a capable and compassionate leader, serving as class representative and Vice Chair of the Bridge Leaders. In these roles, she supported class administrative matters, mentored her peers, and led school-wide events and co-curricular activities.

Her spirit of service extended beyond the classroom. During a Youth Expedition Project (YEP) trip to Thailand, she helped refurbish a rural school and taught English to local children, an experience that left a lasting impression and deepened her commitment to helping others.

LEADING WITH HEART

"My time at ITE taught me that leadership is about uplifting others. I am grateful for the bonds I have built and the lives I have touched, especially during the YEP trip in Thailand. Those moments gave me purpose and confidence."

AFTER ITE

Naiema is currently pursuing the Diploma in Hospitality Tourism Management at Temasek Polytechnic. She hopes to build a career in customer service within the hospitality and tourism sector.

TOP ACHIEVEMENTS

- Naiema represented ITE College East in national-level competitions such as the JA Singapore TTBiz 2023, as well as the Mapletree-SCCCI RHBHacks 2023 where her team came up with a pillow mist that drew the attention of a local entrepreneur interested in supporting its commercialisation.
- She was also actively involved in the ITE ACE (All-round Character Excellence) Programme and pursued the National Youth Achievement Gold Award, reflecting her commitment to personal development and community service.
- In recognition of her outstanding leadership and service, Naiema was awarded the ITE-Rotary Student Excellence Award in 2024.

THE NGENE ANN KONGSI GOLD MEDAL

ASHOK KUMAR S/O SANTARAKASAN

Higher Nitec in Automotive Engineering

GEARING UP FOR SUCCESS

After watching his first "Fast & Furious" film at the age of nine, Ashok developed a fascination with cars. He began collecting model toy cars and dreamed of working on cars one day. This passion led him to join the Nitec in Automotive Technology course. Ashok then enrolled in the Diploma in Mechanical Engineering at Singapore Polytechnic, believing it to be the closest course to the area of automotive technology. However, he did not enjoy it and found himself missing his automotive studies. He eventually withdrew and returned to ITE to pursue the Higher Nitec in Automotive Engineering course.

Devoting himself to his true passion, Ashok flourished and distinguished himself as a high achiever. He was appointed an Automotive Engineering Workshop Ambassador, where he hosted tours of automotive facilities at ITE College West for visitors. Outside school, Ashok sought to make a difference by volunteering with an eldercare centre. He also used his proficiency in Mandarin to help his sister translate and film a video on senior care. The experience was especially fulfilling, as it made him realise his joy in connecting with the elderly and reminded him of cherished memories with his late grandparents.

INSPIRED GROWTH

"I am truly grateful for the guidance from my ITE lecturers, Mr Larry Toh and Mr William Cheong. They nurtured me to be the best version of myself, both as a student and as a person. I used to be afraid of asking questions in secondary school. Through my encouraging lecturers and supportive classmates in ITE, I found the confidence to ask questions whenever I had doubts. This helped me to learn and improve. The achievements I have today would not have been possible without all their support. I still hold onto a valuable piece of advice from Mr Toh: 'Always be confident in what you do and never look back'."

AFTER ITE

Ashok has progressed to the ITE Work-Study Diploma in Land Transport Engineering course. As part of his training, he works as an apprentice technician at Porsche Singapore.

TOP ACHIEVEMENTS

- Excelling academically, Ashok achieved a perfect GPA of 4.0.
- During his internship at ST Engineering Mobility Services, he helped digitalise job cards and parts requisition for vehicle maintenance under the HSBC-National Youth Achievement Award (NYAA) ITE-SME Sustainability Initiative.
- Ashok served as the student leader of an overseas community service trip to Brunei involving ITE College West and Hwa Chong Institution, where he and his peers conducted outreach activities with local schools.
- For excelling in his service contributions, Ashok received the ITE College West 21st Century Star Diamond Award in 2024.

SINGAPORE NATIONAL EMPLOYERS FEDERATION GOLD MEDAL

The Singapore National Employers Federation Gold Medals are awarded to top performing graduates of the Work-Study Diploma Programme who have excelled in their course of study and have made contributions to the workplace training, company's projects and activities. The Singapore National Employers Federation Gold Medals are sponsored by the Singapore National Employers Federation (SNEF).

SINGAPORE NATIONAL EMPLOYERS FEDERATION GOLD MEDAL

MOHAMAD IZZ SYAFIQ B MOHAMAD ALI

Work-Study Diploma in Architectural BIM & Design

CONSTRUCTING A BETTER FUTURE

Izz's passion for architecture blossomed in secondary school, leading him to pursue a *Nitec* in Space Design (Architecture) and *Higher Nitec* in Architectural Technology. At ITE, he excelled in his studies and demonstrated a talent for design and Building Information Modelling (BIM). During his internship at Point Architects, Izz impressed his supervisors with his dedication and technical abilities. Recognising his potential, they offered him a full-time position and sponsored his Work-Study Diploma (WSDip) in Architectural BIM & Design.

Eager to gain industry experience while earning a diploma and salary, Izz jumped at the chance. Izz initially struggled to balance work, studies and personal life but as he gained confidence, he learnt how to manage his work more efficiently. His skills convinced his company to entrust him with key decision-making and projects. In just one year, Izz was promoted from Architectural Assistant to Building Information Modelling (BIM) Modeller and Lead.

STRIVE FOR MORE

"Achieving something great requires resilience and a positive attitude. Both qualities are essential when facing life's challenges, as they help you cope and encourage you to give your best effort. Don't be discouraged by mistakes or setbacks – embrace them as opportunities to learn and grow. It's important to keep pushing forward and never let self-doubt hold you back."

AFTER ITE

Izz is currently serving National Service (NS) with the Singapore Police Force. He plans to utilise the ITE Progression Award to pursue a part-time degree after completing his NS.

TOP ACHIEVEMENTS

- In 2021, Izz won the Gold medal in Digital Construction at WorldSkills Singapore. That was the first time the skill area was introduced in the biennial competition. He went on to represent Singapore at the WorldSkills Competition Special Edition in 2022.
- Izz started as an Architectural Assistant, supporting his colleagues with ongoing projects. His company was impressed by his deep knowledge in software and dedication and after a year, appointed him BIM Lead for a project. This role allowed him to take on greater responsibilities and showcased his skills further.
- He was promoted to BIM Modeller thereafter and received a pay increment. Izz went on to be the BIM Lead for several projects, the biggest of which was for a seven-storey industrial building.

SINGAPORE NATIONAL EMPLOYERS FEDERATION GOLD MEDAL

WAN NUR SHALINA BINTE WAN SHAHRUL HIDHIR Work-Study Diploma in Airport Operations

DREAMS TAKE FLIGHT

After graduating from the *Higher Nitec* in Visual Merchandising course in 2014, Shalina chose to find a full-time job to help her mother financially. She secured a role as a customer service agent at a subsidiary of SATS and was promoted to operations supervisor after three years. When the COVID-19 pandemic disrupted the aviation industry, Shalina transitioned to working as a swabber and later became a swab site supervisor. Nearing the end of the pandemic, she rejoined the aviation sector and was sponsored by SATS for the ITE Work-Study Diploma (WSDip) in Airport Operations.

During her WSDip training, Shalina worked as a customer service agent handling passenger services. She was also rotated through five other business units, gaining experience in various ground operations. Being in this dynamic environment has honed her communication skills and deepened her passion for the aviation industry.

Outside of work, the 30-year-old is also committed to giving back to the community. She volunteers at her constituency's Meet-the-People sessions at least once every fortnight.

FINDING GRATITUDE

"Being able to complete a diploma is something I am very grateful for. After being out of school for many years, I never thought this was possible – especially as my responsibilities grew with age. I am thankful for the Work-Study Diploma programme, which allowed me to earn and support my mother while I studied. I had very supportive lecturers at ITE who went the extra mile to guide me. In class, Mr Raymond Ong was like a father figure who would always stay back after lessons to answer all my questions. At the workplace, Mr Tan Ming Kai often came down to check on us and help us with any issues."

AFTER ITE

Shalina was promoted to the position of Customer Service Officer at SATS, after graduating from the WSDip programme. She plans to continue upgrading herself by taking a degree in aviation management.

TOP ACHIEVEMENTS

- As the top graduate of her WSDip course in 2024, Shalina was conferred the Gold Course Medal. She also received letters of commendation from members of the public expressing appreciation for her helpful service.
- Shalina and her WSDip coursemates spearheaded a project to digitalise Customs, Immigration and Quarantine (CIQ) cases handled by her unit, driving the shift towards a paperless system.
- Recognised for her contributions in the national fight against COVID-19, she received the COVID-19 Resilience Medal in 2024.

SINGAPORE NATIONAL EMPLOYERS FEDERATION GOLD MEDAL

LEE CHEE KEEN

Work-Study Diploma in Land Transport Engineering

DRIVEN TO EXCEL

At 28 years old, Chee Keen made the bold decision to leave his job and return to school, enrolling in the Nitec in Rapid Transit Technology course. Undeterred by the decade-long break in his education, he went on to complete his Nitec, Higher Nitec, and Work-Study Diploma (WSDip) with outstanding academic results, earning multiple top awards along the way.

Chee Keen's talent and commitment stood out at work. He developed an electrical coupler cover that made voltage checks safer for maintenance teams and spearheaded a fleet-wide condition assessment of Downtown Line trains, which helped the company prioritise maintenance efforts and optimise the use of resources. He also led his team to victory in the Rolling Stock category at the Singapore RailTech Grand Challenge 2023, organised by the Land Transport Authority and the Singapore Rail Academy.

A strong advocate for lifelong learning, Chee Keen continues to give back, returning to ITE to share his journey and inspire others at college events like Achieving Personal Excellence (APEX) Day and Meet-the-Parents sessions.

FUELLED BY PURPOSE

"My return to studies was not easy, but ITE gave me the right platform to grow, both professionally and personally. I am proud of what I have achieved, and I hope to inspire others to never give up on their goals, no matter their age."

AFTER ITE

Chee Keen is currently an Assistant Engineer at a public transport operator. A young father, he hopes to spend more time with his family before exploring opportunities for further academic progression.

TOP ACHIEVEMENTS

- Chee Keen consistently ranked top of his cohort, earning Gold Course Medals, and Certificates of Merit across all three ITE programmes.
- In recognition of his exceptional academic performance and commitment to continuous learning, Chee Keen received ITE College West's School of Engineering Outstanding Graduate Award, and the Tan Kah Kee Foundation Lifelong Learning Scholarship.
- His professional growth was equally commendable. He was promoted twice – from Technician to Senior Technician, and then to Assistant Engineer – even before completing his WSDip.

SINGAPORE BUSINESS FEDERATION **GOLD MEDAL**

The Singapore Business Federation Gold Medals are awarded to the top graduates of the Technical Engineer Diploma / Technical Diploma Programme for outstanding course performance. The Singapore Business Federation Gold Medals are sponsored by the Singapore Business Federation (SBF).

SINGAPORE BUSINESS FEDERATION GOLD MEDAL

NURUL HUDA BINTI MOHAMED AZHAR

Technical Diploma in
Beauty & Wellness Management

A PASSION FOR BEAUTY

Thanks to her interest in cultivating holistic wellness in others, Nurul Huda went on to do a Technical Diploma (TD) in Beauty & Wellness Management after her Nitec in Services (Beauty & Wellness). It proved to be a serendipitous decision – she discovered her passion for Traditional Chinese Medicine (TCM) when one of her TD modules touched on the topic.

Huda's interest in Chinese culture deepened when she did an overseas internship stint at a beauty products manufacturing company in Taiwan, where she gained greater understanding of the production and operational processes. She also embarked on a two-week overseas exchange programme at the Hong Kong Vocational Training Council where she learned new techniques on nail artistry and product marketing. During these trips, Huda did not let initial language barriers hinder her. It helped that she had developed an interest in Mandarin years earlier, thanks to her circle of friends. These experiences have collectively fuelled her passion to become a professional in the wellness industry.

Huda's keen interest in TCM and how it can play a part in holistic wellness has motivated her to actively pick up Mandarin full-time upon graduation. She's now looking forward to taking up TCM certification to complement what she has learnt at ITE.

AN UNDENIABLY BEAUTIFUL JOURNEY

"This is an incredibly proud moment for me. The journey has been both challenging and rewarding, and I've learned so much from my lecturers, peers, and family who have supported me. I'm excited to grow in the beauty industry, especially in learning more about how Traditional Chinese Medicine (TCM) can integrate beauty with wellness. I hope to make a positive impact in the industry and inspire others to pursue their passions, just as I have."

AFTER ITE

Nurul Huda is currently working hard to take the Chinese Proficiency Test in December 2025, which will allow her to pursue courses to attain qualifications in TCM. She hopes to use this knowledge to help her future clients and eventually open a wellness centre.

TOP ACHIEVEMENTS

- Huda received the EAGLES Award by MOE (2020, 2021) and the Rotary Club Singapore West Scholarship Award (2022) for her contributions in her CCA, volunteer work and National day Parade (NDP).
- She participated in NDP from 2021 to 2024 as a student makeup artist, providing makeup for over 1000 performers. Huda was also appointed team leader to guide junior students from her course to ensure the performers received a high standard of makeup service.
- She and her team participated in the #startable programme organised by NTU and ITE in 2022 and won the Merit and Audience Choice (Livestream Pitch) awards.

SINGAPORE PRECISION ENGINEERING & TECHNOLOGY ASSOCIATION **GOLD MEDAL**

The Singapore Precision Engineering & Technology Association Gold Medal is awarded to a top performing graduate of the Work-Study Diploma Programme (Engineering/IT-related), working in the manufacturing industry and has made outstanding contributions at the workplace. The SPETA Gold Medal is sponsored by the Singapore Precision Engineering & Technology Association (SPETA).

SINGAPORE PRECISION ENGINEERING & TECHNOLOGY ASSOCIATION GOLD MEDAL

MUHAMMAD NUR'IMAN BIN BADRUL HESHAM

Work-Study Diploma in Microelectronics

BLOSSOMING IN DUE TIME

When Iman first pursued his *Higher Nitec* in Electronics Engineering in 2017, he was all about having fun and it impacted his grades. The Iman we see today is a testament to the truth that people blossom at different stages – some earlier, others later.

After attaining his *Higher Nitec* certificate, Iman completed his National Service and, thereafter, worked as a laser technician for about a year. That period gave him time to reflect on his future. A letter from ITE about the Work-Study Diploma (WSDip) in Microelectronics came at the right moment. With a renewed appreciation for learning, Iman applied.

Iman started out as a Staff Technician at STMicroelectronics. During his on-the-job training, he developed strong analytical and troubleshooting skills. Iman even implemented a solution that protected engineers from exposure to high-voltages during maintenance work. His impressive performance earned him a promotion to Assistant Maintenance Engineer and a pay increment upon graduation from his WSDip course in September 2024. Today, he oversees corrective and preventative maintenance of defectivity and metrology tools.

A HEART OF GRATITUDE

"My success wouldn't have been possible without my supervisor, Mr Alvin Foo, who believed in me even when I doubted myself. I'm amazed at how much I've grown and achieved over the years – I would never have imagined this for myself. I have learnt that my past doesn't define my future, and I hope to continue improving. My lecturers were very nurturing, and I grew alongside my classmates by learning from one another."

AFTER ITE

Iman is doing well at STMicroelectronics and is currently in discussion with his company to pursue a part-time degree at the Singapore Institute of Technology. This will allow him to deepen his expertise in electrical and electronics engineering.

TOP ACHIEVEMENTS

- As the top graduate of his WSDip course, Iman was awarded the Bronze Course Medal at the ITE WSDip Graduation Ceremony in 2024.
- Iman was featured in the January 2025 edition of *VOICE* magazine by the Singapore Semiconductor Industry Association, which showcases the profiles of up-and-coming semiconductor engineers.

e2i GOLD MEDAL

The objectives of the e2i Gold Medal are to promote lifelong learning among adult learners to increase their employability, and to motivate and give recognition to Continuing Education & Training (CET) graduates for their upgrading efforts and achievements. The e2i Gold Medal is sponsored by e2i (Employment and Employability Institute), which helps working people grow their skills and career through career coaching, developing better skills and job matching.

ZHUANG YINGFU, ERIC

Higher Nitec in Technology – Electrical Engineering

STAYING RELEVANT THROUGH UPSKILLING

Growing up, Eric developed an interest in computer programming and learning how electronics can make the world a better place. His preference and inclination towards hands-on learning led him to pursue a *Nitec* in Electronics. He graduated in 2003 and went on to complete a Diploma in Info-Comm Technology in 2009 and a degree in Cyber Forensic & Business Information System in 2013 while working.

As a Technical Manager at Cycle & Carriage Singapore, Eric oversees technical operations, diagnoses advanced vehicle systems, and integrates electric vehicle (EV) technologies. With the EV industry rapidly evolving and offering countless opportunities for growth, Eric, driven by his passion for troubleshooting, decided to upskill to stay relevant.

He enrolled in ITE's *Higher Nitec in Technology – Electrical Engineering* course, using his SkillsFuture credits to offset most of the costs. Despite juggling work and school, Eric discovered he could keep up because of ITE's well-designed training modules, up-to-date facilities, and industry-relevant practical assignments.

As an adult learner and having classmates of different ages, he gained fresh perspectives into the needs and demands of the EV industry through classroom interactions.

UPSILLING AND IMPROVING ONESELF

"The automotive industry is rapidly evolving, and I wanted to upskill to better handle EVs and guide my juniors. I believe in continual learning to stay productive and efficient. The Higher Nitec in Technology – Electrical Engineering course appealed to me because of its foundational EV-related modules which are highly relevant to my work. The training facilities and hands-on oriented learning approach of ITE allowed me to better understand and internalise concepts taught."

AFTER ITE

Eric actively applies his new knowledge in his work and is now better equipped to contribute to his company and provide invaluable guidance to his juniors.

TOP ACHIEVEMENTS

- Eric's pursuit of a *Higher Nitec in Technology – Electrical Engineering* came after his Bachelor of Science in Cyber Forensics & Business Information Systems.
- Having had to juggle between work commitments and his academic pursuit, Eric graduated with an outstanding GPA of 3.80.

IES ENGINEERING AWARD

The IES Engineering Award is awarded to a top ITE graduate for outstanding performance in an Engineering course and contributions in Engineering-related projects and activities. The IES Engineering Award is sponsored by the Institution of Engineers, Singapore.

IES ENGINEERING AWARD

DARYL CHIN JUN KAI

Higher Nitec in Facility Management

BUILDING A PASSIONATE FUTURE

As a young boy, Daryl was captivated by the world of construction and project management. He would often accompany his father to the office and on-site visits, gaining firsthand insight into how the industry operated. His father's role in project management sparked a passion within him, inspiring Daryl to envision a future where he could forge his own path in this dynamic field. Although he faced challenges during secondary school, everything changed when he enrolled in ITE. It was here that Daryl finally had the opportunity to pursue his passion for the built environment. The hands-on learning and practical experiences at ITE allowed him to immerse himself in his studies, transforming his motivation into a strong desire to succeed.

Daryl's dedication paid off, leading him to represent Singapore in the WorldSkills ASEAN 2023 competition in the skill area of Refrigeration and Air-conditioning. This incredible experience further fueled his ambition and commitment to excel in his chosen field.

FOUNDATIONS OF THE BUILT ENVIRONMENT

"I believe that my journey through ITE was a turning point in my life. It laid a solid foundation for my future in facility management and opened my eyes to the intricate workings of construction, alteration, and reinstatement work. The skills I gained in electrical, mechanical, and plumbing systems were crucial for my growth in project management."

AFTER ITE

Daryl is pursuing a Diploma in Facilities Management at Singapore Polytechnic. He plans to obtain a degree in Infrastructure and Project Management and build a career as a Project Management Consultant.

TOP ACHIEVEMENTS

- Daryl led a team to first place in the HSBC-NYAA SME project, developing a SMART Refrigerant Detector Prototype with Daikin/BMS.
- He served as President of the ITE Civil Defence Lionhearer Club, leading public events and community projects, and was commended by the Singapore Civil Defence Force for outstanding contributions.
- Daryl represented Singapore in the WorldSkills ASEAN 2023, competing in the Refrigerant and Air-Conditioning skill area.
- He led his team to second place in the Sustainable Cities Challenge 2024 with a proposal for new sustainable ideas for the Hillview Community Centre.
- For outstanding leadership and achievements in CCAs and competitions, Daryl was awarded the ITE College West 21st Century Star Award 2024.
- He also received commendations from Raffles Strata Management Pte Ltd and its client for his excellent performance during his internship.

OUTSTANDING PROGRESS AWARD

The Outstanding Progress Awards are awarded to exemplary graduates from ITE College Central, ITE College East and ITE College West, who have shown strong perseverance in overcoming challenges to complete their course, displayed exemplary conduct, and made valuable contributions to their College and community.

TAY ENG SOON SCHOLARSHIP

The Tay Eng Soon Scholarship (TESS) is presented to outstanding ITE graduates who have performed well academically and attained good co-curricular activity (CCA) records. The TESS is open to ITE graduates pursuing a full-time Diploma course in ITE or the polytechnics. Selection for this award is based on merit and CCA achievements.

It is funded by the TESS Fund, which was established in 1993 from donations received from companies, individuals and staff of ITE, Singapore Polytechnic, Ngee Ann Polytechnic, Nanyang Polytechnic and Temasek Polytechnic, in memory of the late Dr Tay Eng Soon, former Chairman of ITE and Minister-in-Charge of polytechnics and technical education from 1981 to 1993.

GRADUATE AFFAIRS AND CAREER SERVICES DEPARTMENT

Congratulations on having successfully completed your training at ITE. We extend a warm welcome to you as our new member of the fast-growing ITE Alumni Network.

The ITE Alumni Network will help you to stay connected with your fellow alumni and with ITE. As an alumnus, you can enjoy the following services:

- Networking activities and reunions;
- Career advising at our Career Services Centre to help you determine suitable jobs to match your personality and interests;
- Job portals (MyCareersFuture, CareerNet@ITE and Careers@Gov) to facilitate your entry into the world of work; and
- Information on ITE's extensive range of part-time courses to update your skills and further enhance your employability. We also welcome you to share your experiences with ITE students or mentor them in developmental activities.

Please visit our website at:

<https://www.ite.edu.sg/alumni>

or contact the ITE Graduate Affairs and Career Services Department to find out more about the services lined up for you.

To help us stay in touch, do remember to update your contacts at:

<https://www.ite.edu.sg/e-services>

ITE ALUMNI ASSOCIATION

The ITE Alumni Association is a society established by ITE graduates in 1997. It was set up to promote closer ties, professional interests and networking among members; organise educational, social, cultural and sporting activities for members; and foster links between members and ITE. Many of our members have attained success in business, industry, sports or the arts. Some have gone on to assume positions of leadership in their chosen professions while others are providing invaluable services to the community.

Besides organising activities for members, the Association contributes to its alma mater by donating substantial amount annually to ITE Endowment Fund to help needy ITE students.

With more alumni living and working overseas, the Association has overseas chapters in Guangdong, Suzhou, Shanghai, Malaysia and Vietnam to provide a platform for members to network and explore business opportunities, and also help ITE in promoting technical education by facilitating and sourcing for overseas industrial attachment places for ITE students.

The Association has a Youth Wing dedicated to serve the needs and interests of new, fresh, young graduates like yourself. Please visit the ITE Alumni Association's website for more information. You can also contact the ITE Graduate Affairs and Career Services Department for more information on the ITE Alumni Association.

We look forward to you joining us as an ITE Alumni Association member. Please scan the QR code to apply for your membership today. We share your joy as you embark on the next phase of your journey.
