ISSUE 2: OCTOBER 2024

Workplace *Learning*, Workforce *Agility*

## AsiaPac Empowers Future IT Talents through Work-Study Diploma Programme

With over 30 years of experience in the IT industry, AsiaPac Technology Pte Ltd has established itself as a leading provider of IT Infrastructure, Cloud Solutions, and Enterprise Computing in Singapore. Their success is built on the strong collaboration between its management, staff, and business partners. Their commitment to investing in training and talent development has seen them actively participate in programmes such as ITE **Work-Study Diploma (WSDip)** and **Certified On-the-Job Training Centre (COJTC)**.

AsiaPac embarked on its WSDip journey in 2021. Since then, they have employed and trained 21 WSDip trainees. Thanks to the company's dedication to nurturing the next generation of local talent through structured training, AsiaPac's WSDip trainees are equipped with the critical skills needed to thrive in their roles.

Director of Cloud Technology, Mr. Kenneth Sim, highlights that treating trainees as integral team members is a cornerstone of the programme's success. WSDip trainees are entrusted with significant responsibilities, such as presenting business solutions directly to the CEO and addressing client needs, providing them with invaluable exposure to industry challenges.

One such success story is Mr. Mohamad Qusyairi B Mohamad Y., who joined the WSDip in Cloud Management & Operations in 2022. He credits the programme's blend of academic learning and hands-on experience for equipping him with the skills needed to stay competitive in the industry. Since joining AsiaPac, he has earned eight industry-recognised certifications, showcasing the tangible benefits of this comprehensive training approach.

We are thrilled to announce the exciting launch of ITE's new Workplace Training Centre (WTC) Scheme!

This initiative has garnered overwhelming support from the industry, reflecting its significance and potential. In a short span of 2 months, more than 200 participants have benefited from the programme. A heartfelt congratulations to the WTCs that have achieved certification, and our sincere appreciation to those currently working towards it. Together, we're shaping a brighter future for skills upgrading and workplace training!

## Event Highlights

### Industry Partners' Day with APSN Chaoyang School

Each year, we engage with our industry partners through various platforms, but few events resonate as deeply as the Industry Partners' Day, held on 3 October 2024, the eve of Children's Day.

On this special occasion, ITE and our valued partners generously contributed their time and effort, and sponsored snacks and essential items for the children of APSN Chaoyang School. Events such as these not only strengthens community bonds, but also helps us foster enduring relationships with our partners that extend beyond professional collaboration. We extend our heartfelt thanks to all our sponsors and volunteers for their invaluable support.
