

Internship Management Portal (IMP) Training for Companies

Fri 30 May, 4pm – 5pm

Value Propositions of the IMP

Enhancing student learning experience, student success, staff satisfaction, relationship with industry partners and future placement opportunities

Value Propositions of IMP

Integration

From a diffused system to a comprehensive **integrated** platform

Accessibility

From a closed intranet network to an **internet accessible** SaaS system

Automation

From manual processes to a streamlined **automated** system

Data-Informed

From anecdotal, experience-based to **data-informed** decisions

Autonomy

From a lecturer-facilitated placement process to **empowering** students towards a self-directed placement acquisition process

Pain Points

Staff

- **Operational inefficiencies of a fragmented system**
- **Risk of errors**
- **Difficulty in monitoring student progress** due to multiple, disjointed information streams
- **Limited visibility on key issues** due to limited data collection capabilities in current system

Students

- **Challenge of keeping track of internship progress** due to fragmented documentation and assessment processes
- **Alignment** of internship placement process with WSD or job application process.

Companies

- **Operational inefficiencies** due to lack of a streamlined communication and documentation platform
- **Confusion from IPA duplications**
- **Dated and cumbersome paper and pen system** with little visibility between Company HR and Supervisors

IMP Workflow: Roles & Responsibilities

1. Registration & IPA

a) New Companies

CLO sends eDM to company to register

Company Admin registers and selects course/School

Registration is routed to CLO. CLO triggers IPA to company.

Company Admin completes IPA

AD approves IPA, if needed

Company gets access to IMS. First login via CorpPass. OTP/CorpPass subsequently.

Company Admin adds/ edits users

b) Existing Companies with Expiring/Expired IPA

CLO receives notification. CLO triggers IPA renewal process.

Company Admin completes renewal of IPA

AD approves IPA, if needed

Company gets access to IMS

Company Admin adds/ edits users

2. Job Posting

Company Admin posts job, selects course/School

Optional: IAC can post job on behalf of company

IAC approves job posting

3. Student Job Application

Closed Market: IAC allocates student to job

Open Market: Student applies for job

Open Market (optional): IAC approves application

Open Market: Company interviews (optional) and offers student job

Open Market (optional): Student accepts offer

IAC assigns LL to student

Company Admin assigns Company Supervisor to student

4. Start of Internship

Reflection Journal

Student submits journal

Site Visitation

LL creates site visitation entry

Mid-term Assessment

Company Supervisor submits assessment

Internship Logbook

Student completes logbook

Company Supervisor completes logbook

5. Final-term Assessment

Student completes survey

LL submits marks for internship report and presentation slides

Company Supervisor submits assessment

Company Supervisor submits feedback

Company Supervisor completes survey

AD, IAC and M can view final marks

M submits final marks

6. iStudent Integration

Final marks are synced into iStudent

Thank you

Corppass Access to IMP

We encourage Company Administrators to ensure that your company is registered on Corppass. For more information on Corppass registration and role assignment, please visit: <https://www.corppass.gov.sg>. As a Company Administrator, you will require Corppass access to onboard your company to the IMP.

To enable access to IMP via Corppass, please use the following details:

- Agency Name: INSTITUTE OF TECHNICAL EDUCATION
- Digital Service Name: Internship Mgmt. System
- E-Service ID: INTERNSHIP-MGMT-SYSTEM

If you are unable to locate the service on Corppass, please try the following steps:

1. Clear the browser Cache (choose 'all' or '24 hours')
2. Close the browser
3. Open a new browser
4. Go to Corppass login. You should be able to view IMP.
