IMPULSE

ISSUE 3: MAY 2025

Workplace *Learning*, Workforce *Agility*

TAKING YOU PLACES with ITE Work-Study Diploma

In this issue, we explore how Nam Ho Travel broadens their trainee's horizons with Overseas Attachments.

Through his On-the-Job Training (OJT), Keve has gained valuable skills, leading to positive customer feedback and enthusiastic reviews.

"The briefing by Keve is very well done and informative. He was patient, kind and accommodating, even helping me to set up the payment app and teaching me how to use it..."

"Keve has been very helpful since my first enquiry on the Japan trip. He is patient and super responsive. Booked the trip and looking forward to it."

"Very good and superb service from Keve... Fast and efficient. Keve is very responsive to all my queries."

Partner Spotlight: Nam Ho Travel's Work-Study Diploma Journey

Ms Irene Ooi (pictured left), Director of Nam Ho Travel, recognised Keve Low's (pictured right) potential from the moment he joined the company as an intern during his *Nitec* course. His proactive attitude, openness to learning, and natural enthusiasm quickly set him apart. During a recent Travel Roadshow, Keve spontaneously hosted a Facebook Live session, impressing many with his engaging and cheerful personality.

Seeing Keve's potential, his mentor Mr Rick Cheong recommended the ITE Work-Study Diploma (WSDip) programme to him. This aligned with Ms Ooi's strategic vision of nurturing young talent and future-proofing the business, leading Nam Ho Travel to sponsor Keve's WSDip in Tourism Management when it launched in April 2024.

Global Learning Opportunities

Already leading tours in Turkey, China, and Japan in his first year of the WSDip programme, Keve exemplifies the value of overseas work exposure.

Through SkillsFuture Singapore's Overseas Attachment Fund, WSDip partners can receive up to 90% funding support for travel costs, making overseas work exposure an achievable goal for WSDip trainees.

Partnership Success

Keve continues to excel through the effective combination of ITE's academic training and Nam Ho Travel's OJT with real-world experience. Balancing his WSDip studies with work, his commitment to delivering memorable travel experiences has earned glowing customer feedback.

Driving Excellence with Structured On-the-Job Training

Nam Ho Travel has been recognised as an ITE [Certified On-the-Job Training Centre](#) (COJTC) Advocate, making a significant milestone in their commitment to talent development. The company is now collaborating with ITE to develop a structured training blueprint, ensuring systematic onboarding and upskilling of new talent.

SkillsFuture Jobs-Skills Portal

Power up your workforce planning with the [Jobs-Skills Portal by SkillsFuture Singapore](#). This platform helps you analyse skills needs, track industry trends, and align training requirements - all in one place. Use these insights to enhance your Work-Study Programme, Certified On-the-Job Training Centre, and CET journey with ITE.

March'25 - ITE X BASE Seminar

The ITE-Business Alliance Sustainable Economy (BASE) Seminar on Sustainability Strategy, held on 25 March 2025, delivered crucial insights for businesses navigating the sustainability landscape. Led by Aeterni.eco CEO, Mr Wee Boon Siong, the session tackled pressing issues from carbon management to green finance opportunities, with practical emphasis on implementation strategies and available government support.

For the participants, the seminar provided actionable insights. One shared, *"It was a good learning experience with excellent knowledge sharing. The discussions helped bridge the gap between sustainability theory and actual business implementation"*.

Look out for our next run!
