

**How do we ensure  
inclusive access  
to all students?**

To cater to rising demand, MOE will work with Social Service Agencies (SSAs) to expand SPED school capacity.

The expansion will be carried out from the second half of 2026 through the early 2030s.

## Additional campuses

MOE will partner with MINDS to expand teaching facilities and resources with additional campuses for three MINDS SPED schools.

These schools will operate additional campuses at interim sites:

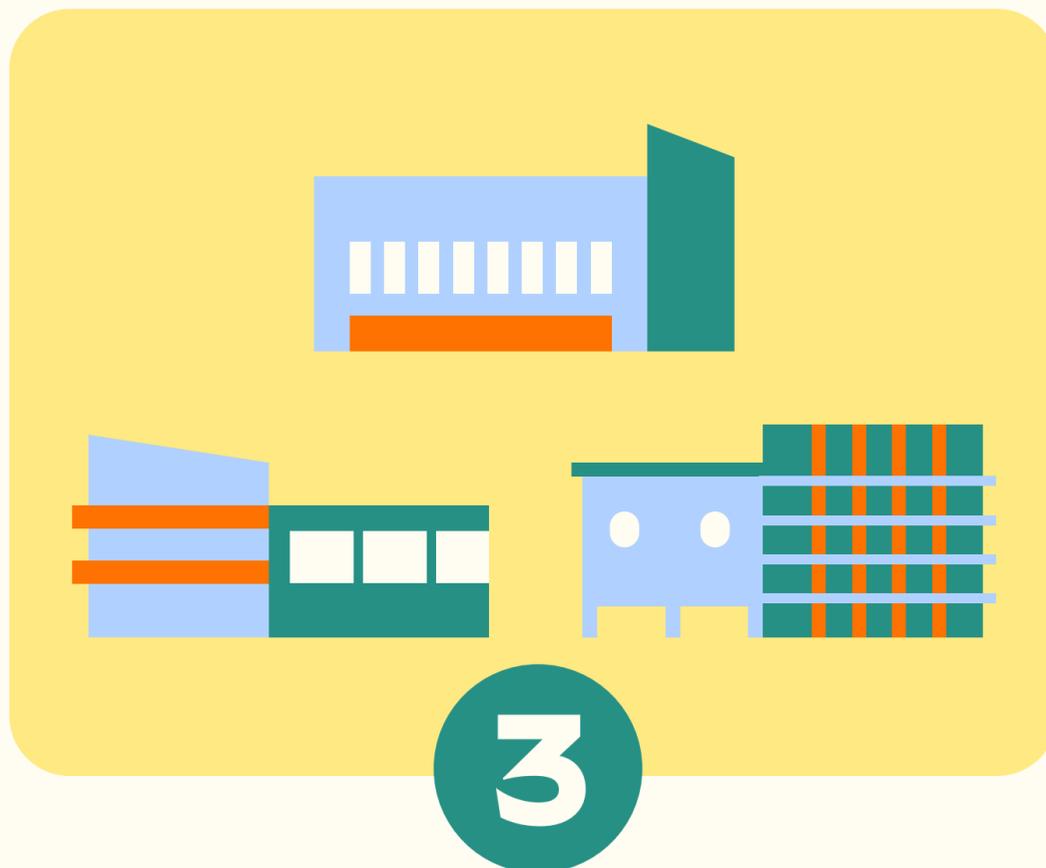

## Expanding existing SPED school

The fourth MINDS SPED school, Woodlands Gardens School will relocate to a larger interim site\* in the North Region from 2027, to continue serving students with increased capacity.

\* MINDS schools' expansion plans will increase capacity and reduce commuting time for some existing students. MINDS schools' additional and larger campuses will operate at the interim sites for at least 5 years. MOE, with the relevant agencies, is studying the longer-term infrastructure plans for these schools, including their permanent locations. Details will be shared in due course.

## Three new SPED schools

MOE is studying the establishment of three new Autism Spectrum Disorder with Intellectual Disability (ASD-ID) schools across the island to enhance geographical accessibility.

MOE will partner **three SSAs** with experience and domain expertise to set these schools up.

**APSN Education Services Ltd.**

**Autism Association (Singapore)**

**St. Andrew's Mission Hospital**

More details will be shared when ready.

Currently

By 2030s

13 → 16

the number of SPED schools serving students with ASD-ID

26 → 30\*

the total number of government and community-funded SPED schools across various disability types

9,000 → ~12,000

the number of SPED students served

\* Includes the existing 26 SPED schools, the 3 new ASD-ID schools, and Pathlight School 3 in Punggol.
