

ONEHealthSG

Singapore's One Health Charter

Setting the objectives for
One Health in Singapore

Singapore One Health Charter

(ONEHealthSG)

The Charter sets the objectives for One Health in Singapore. It is based on shared leadership and responsibilities and is guided by our Mission and Core principles.

Mission

One Health for Singapore commits to anticipate, prevent, prepare against, respond to, and recover from shared One Health threats to build health resilience for human, animals, and environment.

Core Principles

The One Health '4Cs' approach actively promotes policies, systems, and overall conditions that foster good governance, interdisciplinary collaboration, effective coordination, and open communication, and optimises capacity building efforts across sectors and disciplines.

Collaboration

Coordination

Communication

Capacity Building

Strategic Pillars and Objectives

Singapore aims to build One Health excellence and health resilience using the '4Cs' approach to address complex health challenges. This goal encompasses our 8 strategic objectives across 3 pillars (Annex 1):

Strategic Pillar	Objective	
Engagements	Communication	Develop targeted messages to promote stakeholders' understanding and action toward One Health threats.
	Networking	Build collaborative relationships across disciplines and borders.
	Leadership	Champion One Health approaches on the global stage.
Sector Development	Partnerships	Mobilise local and international partnerships with industry, professional, and community sectors to operationalise One Health principles and programmes.
	Education	Raise competencies through interdisciplinary training, delineating competencies and identifying specific learning requirements for various roles and activities.
Insights	Research	Prioritise and conduct multidisciplinary studies to address knowledge gaps and translate findings into actionable policies and operations.
	Data	Share data across sectors to enhance decision-making and risk assessment capabilities.
	Surveillance	Improve monitoring and evaluation systems that span human, animal, and environmental health sectors for early detection and response to health threats.

Singapore Government Agencies for One Health

The names and addresses of the five partner agencies are as follows:

Communicable Diseases Agency (CDA)
