

In addition to HIV testing in hospitals, other testing options are available in Singapore:

### **Rapid Testing Services**

Testing is done using a small blood sample from your finger or a swab of saliva, with results ready within 20 minutes. Personal information may be required.

[→ Click here to view rapid-testing sites](#)

### **Anonymous Testing Services**

Look out for the icon. These clinics offer anonymous HIV testing and no personal information is required.

[→ Click here to view anonymous-testing sites](#)

### **HIV Self-Testing Kits**

HIV testing can be performed in your own comfort using a self-test kit.
