

# BRING WHAT YOU NEED.

CHOOSE COVERAGE  
BASED ON YOUR NEEDS.

**If you were to fall ill tomorrow, would you seek treatment in private or public care? Your answer can help decide if you need Integrated Shield Plan (IP) riders, and if yes, which one. Consider these facts too:**

MediShield Life and MediSave are sized to cover 9 in 10 subsidised bills in public healthcare institutions.

About half of patients with IPs and riders still opt for subsidised care, which MediShield Life and MediSave sufficiently cover.

For most large private hospitalisation bills, the bulk of the bill is paid by the IP rather than the rider.

**Speak to your agent and choose a coverage that fits your needs**
