NATIONAL PARKS
LET'S MAKE SINGAPORE OUR CITY IN NATURE

REIMAGINING LABRADOR NATURE PARK

Defining Labrador Nature Park as a Destination Park

Strengthening Labrador's Coastal and Forest Habitats

Strengthen Labrador Nature Park's forest and shore ecology with reforestation, creating a coastal arboretum which further strengthens buffer zones for the nature reserve.

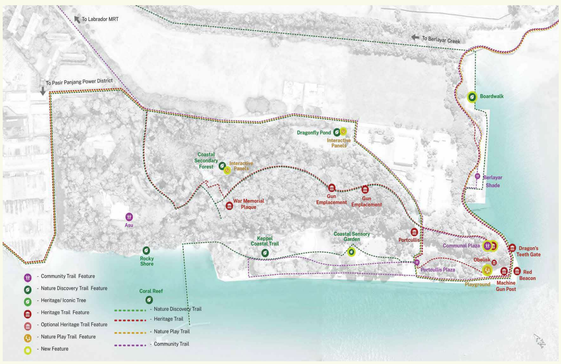
Strengthening Labrador's Diverse Coastal Habitats

Celebrate Labrador Nature Park's heritage through conservation and storytelling

Connecting People, Nature, and Heritage

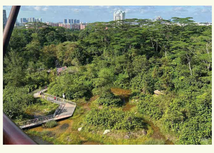
Create meaningful connections between people, nature, and history

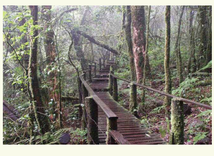
Potential trail features in Labrador Nature Park



There will be four trails across Labrador Nature Park, with a focus on heritage and nature spots. Each trail will come with its own set of unique landmarks and features.

Nature Discovery





Coastal Boardwalk

Elevated walkway offering sea views and wildlife observation opportunities, connecting key park areas while minimising environmental impact on sensitive coastal ecosystems and heritage sites

Nature Play

Fortress Adventure Playground

Fortress-inspired playground at Labrador Nature Park where children explore fort-like structures and defensive walls, discovering Singapore's coastal defence history through imaginative play and adventure

Heritage

Fortifications + Post-WWII Transformation Zone

The use of textured pathways, rocky coastal plantings, as well as signage and wartime art installations guide visitors through Labrador's transformation from colonial fortress to post-war sanctuary

Community

Communal Plaza

Central gathering space serving as Labrador Nature Park's community hub, featuring heritage-inspired design elements and native landscaping for social interaction and educational programmes
