The Gift of Care goes on

Dear Caring Commuter Champions,

How have you been? Reflecting on the past year, we are filled with appreciation for the incredible efforts you've made in supporting and growing the Caring SG Commuters movement.

Your dedication has been key to shaping a more inclusive commuting culture in Singapore. Many of you have lent a helping hand to others, even going above and beyond singular acts of care to stepping forward during the East-West Line disruption to assist fellow commuters in need.

We are deeply thankful for the time and energy you've invested in caring for others. While we've made great strides, our mission to create caring and inclusive commutes continues in 2025, with an exciting lineup of activities planned such as the CCC Practical Course and tissue packet distributions. Stay tuned for more information [here](#) as we continually update our activities and volunteering opportunities.

Wishing you all a joyful holiday season, and we can't wait for the next chapter in our journey together!
