

15 June 2026

Dear Sir/Madam

EXTENSION OF THE ENERGY EFFICIENCY GRANT (EEG) AND EXPANSION OF THE PRE-APPROVED LIST FOR THE CONSTRUCTION SECTOR

Objective

This circular informs the industry of the timeline extension of the Energy Efficiency Grant (EEG) and the expansion of the EEG (Base Tier) pre-approved list for the Construction sector.

Overview of EEG

2 The Energy Efficiency Grant (EEG) for Construction Sector supports construction firms by lowering the upfront investment needed to adopt energy-efficient and electric machinery. As more firms come onboard, we are seeing how electrification can deliver both immediate and longer-term value, from cost savings to more stable operations with grid reliability.

Extension of EEG

3 During Budget 2026, the Government announced that the EEG will be extended for one year, from 1 April 2026 to 31 March 2027. Additionally, as announced via the Ministry of Finance's 7 April 2026 Ministerial Statement, the EEG (Base Tier) has been further extended to 31 March 2028. Hence, please note the grant application deadline of the two tiers under the Construction sector below:

EEG for Construction sector	Grant Application Deadline
Base Tier	31 March 2028
Advanced Tier	31 March 2027

Expansion of the EEG (Base Tier) Pre-Approved List

4 BCA has expanded the EEG pre-approved list to include more solutions and models that are now commercially available in Singapore. This expansion aims to benefit industry stakeholders by providing a wider range of qualifying energy-efficient equipment for construction site works. Firms are encouraged to review the updated pre-approved list on the GoBusiness webpage before application.

Who can apply

5 Please note that there are no changes to the eligibility criteria. Only construction firms registered and operating in Singapore under SSIC 41 – 43 and are using energy-efficient construction equipment for their site works may apply for the EEG for the construction industry. Applicants must also meet all the following eligibility criteria at the point of application for the respective tiers of support:

- Has a minimum of 30% local shareholding
- Has a group annual sales turnover of no more than S\$500mil
- The equipment purchased must be used in Singapore

6 We invite interested applicants to submit applications through the Business Grants Portal (BGP 2.0) (<https://www.businessgrants.gov.sg/>) The full eligibility criteria, supportable energy-efficient equipment and FAQs can be found on the GoBusiness webpage (<https://www.gobusiness.gov.sg/energy-efficiency-grant/>).

Clarifications

7 If you have further queries and/or clarifications on this circular, you may visit us at (<https://go.gov.sg/energy-efficiency-grant-construction>). For information on other support schemes managed by BCA under BuildSG Transformation Fund, please visit (go.gov.sg/btf).

Thank you.
