

ACCESSIBILITY

Maintaining a safe and **accessible** built environment for all

Earlier efforts to improve
Accessibility of older buildings

- Public sector took the lead:
 - **almost 100% of existing public sector buildings** achieved at least basic accessibility
- BCA's **Accessibility Fund** supports **voluntary retrofit** of older private buildings with basic accessibility features

NEW: Basic Accessibility
for older buildings
(before 1990)

Existing commercial & institutional buildings*:

- **that undergo A&A works on any floor of the building;**
- **with GFA > 500sqm** must be retrofitted with basic accessibility features

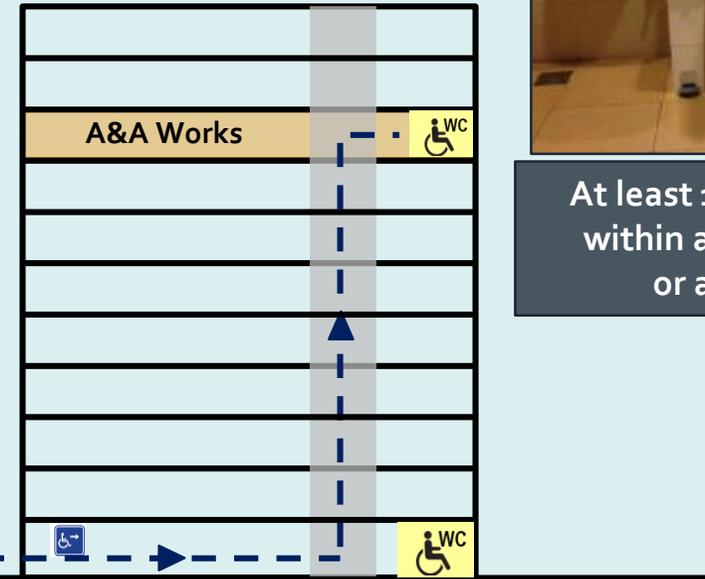

Eg: offices, shopping centres, recreational clubs, amusement centres, etc.

Accessible Route(s) to Lift lobby

An Accessible Entrance

At least 1 Accessible Toilet
within area of A&A work
or at entry level

Basic Accessibility Features
