IN THIS ISSUE

MHA

Navigating online polarisation

SMS Sim Ann, panellists and members of the public discussed online polarisation and misinformation at a dialogue held by REACH and The Whitehatters.

[Click to read more >>](#)

- Online polarisation amplifies division by creating conditions for misinformation and false narratives to flourish. If left unaddressed, this can erode the trust between communities built over generations.
- Singapore adopts a balanced approach in dealing with vast amounts of online media, focusing regulatory measures on content that is against the public interest.
- An informed and discerning society is critical to strengthening our resilience against online harms. Play your part by checking sources, verifying information before circulating it and reporting suspicious content.

SPF HTX

Enhancing policing with emerging technologies

At its Workplan Seminar 2026, SPF unveiled a suite of unmanned capabilities, including integration of AI to enhance operational effectiveness, improve citizen experience and better equip officers to navigate the complex security landscape.

[Click to read more >>](#)

- The Home Team SkyGuardian, an unmanned aerial platform that extends SPF's operational reach into areas with limited Police presence, was launched.
- Unmanned land capabilities include the Community Engagement Robot Ambassador (humanoid robot) and Police patrol robots.
- An Unmanned Surface Vessel is being piloted to supplement maritime patrols and support incident response alongside manned vessels.
- SPF is working with HTX to develop AI products to optimise processes, such as TRACER (a video analytics capability for identifying traffic violations), Investigator Co-Pilot (an AI tool supporting investigation case management) and R-COP (a chatbot to assist the public in lodging police reports at self-help kiosks).

Unmanned, but never without a human touch

From drones to robots, the Police's newest technologies usher in a new policing era across the air, land and sea, automated but ever so distinctly human.
