IN THIS ISSUE

"The Ministers in the MHA have been visiting ground units to offer support and express our appreciation... we will continue to support them (HT officers) in every way we can."
- SM, media doorstop on 19 October

Haze or shine, the Home Team's dedication to keeping Singapore safe never wavers.

MHA

Staying ahead of AI-enabled cyber threats

Speaking at the Singapore International Cyber Week, SM called for proactive defence against AI-enabled cyber threats — acting earlier, at scale and at speed. Key measures include continuous threat-hunting, a national situational picture via the National Cybersecurity Command Centre, and speeding up the adoption of AI-enabled cyber defence capabilities.

SPF HTX

Welcome home, Ops Vanguard — you've done us proud

Deployed to support Nepal's flood and landslide disaster relief from 1–18 September, our 35-member Operation Vanguard contingent conducted disaster victim identification and aerial surveillance training. Working alongside their Nepali counterparts, the officers conducted post-mortem examinations, fingerprint recording and identification, and trained officers from the Nepal Police and Armed Police Force in drone operations to strengthen Nepal's longer-term disaster response capabilities.

H2RC launched to train humanoid robots for HT

The Home Team Humanoid Robotics Centre (H2RC) is the first of its kind dedicated to humanoid robotics for public safety. Speaking at the launch, 2M Tong shared how H2RC will empower humanoid robots with Embodied AI to tackle routine, physically demanding or dangerous tasks for HT operations. Humanoid robots are expected to perform defined tasks safely and reliably alongside HT officers by 2028.

HTA

HTA accelerates AI-enabled training and recognises excellence

To equip officers with future-ready skills, HTA is accelerating the transformation of HT training through the use of AI, smarter learning technologies and enhanced digital infrastructure. HTA and HTX are also developing UNITY, which will replace the current Home Team Learning Management System 2.0. These developments were announced at the HT TraX Awards Ceremony, which recognised 17 trainers and 10 training units.
