

High Containment Facility (Certified Facility) Checklist for BSL3 and ABSL3 Facility in accordance with SS696-2023 Singapore Standard: Specification for High Containment Facility

Important reminders:

1. The facility is advised to approach the Ministry of Health-Approved Facility Certification Body (MOH-AFCB) that the facility has engaged for the certification service, to request for a copy of the High Containment Facility (Certified Facility) Checklist.
2. The checklist shall be used as a minimum criteria for audit of high containment or BSL 3 facilities based on SS 696:2023 requirements. Additional checklist may be used only to supplement this checklist.
3. Facility is to use the checklist as reference or guidance material for the preparation of the facility's certification.
