

Urgent Field Safety Notice

Att. Users of above product

June 6th, 2018

Dear Sir or Madam,

B. Braun Surgical, S.A. is voluntarily recalling several reference/batches of Safil® and Novosyn®, a sterile, absorbable surgical multifilament sutures.

Description of the medical device deficiency

From an internal non conformity, the company detected that some units of the mentioned products have the pack damaged, as a consequence the product sterility is compromised.

Potential harms associated are

Wound infection (e.g. endomyometritis, localized/generalized peritonitis), abscess formation, adhesions, risk of wound dehiscence, sepsis that could lead to life-threatening injury.
Treatment or reoperation might be necessary.

We would not recommend any specific monitoring of the patients that have been treated with the involved products since there is a risk of infection innate in any type of surgery. The hospital should act according to their established protocol for such complications.

Reference name: **NOVOSYN®** (Several references affected see attachment)
