

## APPLICATION FOR CONSIGNMENT APPROVAL OF UNREGISTERED THERAPEUTIC PRODUCTS FOR PATIENTS' USE

Dear Industry Stakeholders,

The Therapeutic Products Branch (TPB), Health Products Regulation Group is pleased to share the following new initiative.

### Online Application Form for Consignment Approval of Unregistered Therapeutic Products for Patients' Use

TPB is introducing a new electronic application form (e-form) to enable online submission of applications for consignment approval of unregistered therapeutic products for patients' use.

This special access route serves to facilitate access to life-saving therapies where there is an unmet medical need, such as in situations where treatment option is absent and the patient's health will be clinically compromised without treatment with the unregistered therapeutic product.

The e-form for online submission will replace the existing PDF application form for fax submission, this is part of HSA's on-going drive to digitalise business processes and enhance efficiency.

Applicants will require CorpPass to login and access the online application form. For more information on CorpPass or to register for a CorpPass account, please click [here](#).

The online submission will be available on the [HSA website](#) from **2 September 2019**. There will be a 2-month transition period for applicants to switch to the online submission while the fax submission will remain available. During this 2-month period, applicants are strongly encouraged to use the online submission and familiarised themselves with the new system. **The fax submission will be discontinued from 2 November 2019 onwards.**

Please inform the healthcare institutions, doctors, dentists and pharmacists who may engage your company to import unregistered therapeutic products, and refer to the [ANNEX](#) for a list of Frequently Asked Questions on the Online Application Form.
