

CO-ORGANISED BY

END-TO-END PRODUCT AND PROJECT DEVELOPMENT & EXECUTION **AT ACTRIS**

A half-day masterclass introducing ACTRIS's end-to-end cell and gene therapy (CGT) capabilities to Singapore's ecosystem.

Participants will discover how ACTRIS supports the manufacturing of CGT - from product development through to clinical trials and clinical services.

WHO SHOULD ATTEND

Clinicians, scientists, researchers and start-up companies exploring opportunities to advance their CGT projects through ACTRIS.

SESSION 1

25 Sep 2026 (Fri)

11:30 am - 5:00 pm

**ELEMENTUM, MOH
HOLDINGS L11
(AUDITORIUM 5)**

1 North Buona Vista Link
Singapore 139691

SESSION 2

09 Oct 2026 (Fri)

11:30 am - 5:00 pm

**ACADEMIA
(L2 - S3/S4)**

20 College Rd
Singapore 169856

KEY OBJECTIVES

By the end, you will be able to:

Understand the end-to-end CGT manufacturing project lifecycle at ACTRIS.

Navigate project governance, funding landscape, and contracting processes.

Understand technology transfer, regulatory, and quality requirements.

Gain insights into GMP manufacturing and QC testing operations.

Understand key considerations for product manufacturing and engagement pathways.

Identify opportunities to collaborate with and access ACTRIS capabilities.

**REGISTRATION
EXTENDED!**
