

Conceptual plans for neighbourhoods within Bukit Timah Turf City

Racecourse Neighbourhood

Anchored around the historic grandstands and central open space that references the racetracks, the Racecourse neighbourhood is conveniently located next to the upcoming Cross-Island Line (CRL) MRT Station. Envisioned as the new civic heart of the Bukit Timah Turf City, the area will provide a wide variety of large-scale sports, recreational, commercial and community amenities within five minutes walking distance of the MRT station.

Stables Commune

Located along Dunearn Road, this neighbourhood will take after the existing street character of Bukit Timah Road. The former workers quarters and stables will house small-scale lifestyle offerings to enliven the area.

Saddle Club Knolls

This neighbourhood will be defined by its undulating terrain and surrounding forests. The former Bukit Timah Saddle Club clubhouse and its surrounding landscape is intended to be an attractive lifestyle node and gathering space for the surrounding residents. Fairways Quarters could leverage on the rustic charm of the area and provide family-friendly activities and open spaces.

Tinggi Hills

Situated at the foothills of Bukit Tinggi within former golf course land, this neighbourhood will feature residential developments with good views towards the Central Catchment Nature Reserve and Bukit Tinggi.
