

Details on SafeEntry Check-in

- With TraceTogether-only SafeEntry implemented at F&B establishments, SafeEntry check-in can only be done by:
 - i) Scanning the SafeEntry QR code using the TraceTogether App;
 - ii) Presenting the TraceTogether Token QR code to the camera/2D scanner linked to SafeEntry (Business) App for scanning; or
 - iii) Bringing the TraceTogether Token or App close to a SEGW.
- F&B establishments are required to deploy SafeEntry via TraceTogether-only SafeEntry to log the check-in of customers and visitors to their premises, with the exception of those that only provide takeaway and/or delivery, with no dine-in services. However, all F&B establishments must require their employees and vendors to do SafeEntry check-in via TraceTogether-only SafeEntry.
- In addition, F&B establishments required to deploy SafeEntry for customers and visitors need to provide the SEGW as an additional option for SafeEntry check-in. SEGW is available as a feature within the SafeEntry (Business) App (updated to the latest version) and as a physical standalone device (SEGW Box). These F&B establishments may apply for a free SEGW Box¹.
- For avoidance of doubt, TraceTogether Token check-in and SEGW both refer to the mode of check-in, while TraceTogether-only SafeEntry refers to the overall programme which will permit only TraceTogether modes of check-in (i.e. TraceTogether App or Token).

For more information, please refer to the FAQs on www.safeentry.gov.sg.

¹ Refer to go.gov.sg/gateway-overview for how to implement the SEGW and apply for a free SEGW Box.
