

(b) Where the boundary is shared with a non-industrial development:
Guidelines on earthworks, retaining, and boundary walls will apply

(d) Where the boundary abuts a drainage reserve:
If the development beyond the drainage reserve is a non-industrial development, the guidelines on earthworks will apply. Guidelines on retaining and boundary walls will not apply

Note:
“Industrial building” here refers to B1, B2 developments or Business Parks.

(c) Where the boundary abuts a public road:
Guidelines on retaining and boundary walls will apply. Guidelines on earthworks will apply if the development across the road is a non-industrial development
