

About CRL Collaboration Fund and Qaryah

Annex C

All mosque officers receiving the funds have undergone Programme Impact Evaluation training, reinforcing a commitment to honest reflection and continuous improvement in serving the community. These projects include:

- District West: Qaryah 2.0, a project between Masjid Al-Khair and Masjid Assyakirin, brings home-based Islamic education to families in rental housing blocks, integrating congregational prayers, tailored learning modules, and year-round welfare-religious outreach.
- District South: YDO Capability Attachment Programme, a project between Masjid Al-Amin and MEMBINA Community, which embeds 12 Youth Development Officers in real-world youth ecosystems to build practical outreach competencies.
- District North: The Santunan Emas 2.0 Hospital Care Kit is a new initiative by Masjid Al-Muttaqin and partners, that develops and distributes faith-centred care kits to support Muslim seniors in hospital and hospice settings.
- District East: Youth HeartTalk Series, a project between Masjid Darul Aman, Masjid Darul Ghufuran, Masjid Alkaff Kampong Melayu, and Masjid Al-Istighfar, is a four-session District-wide programme addressing relationship challenges faced by Muslim youths through faith-based, interactive engagement.

The Townhall also highlighted the expansion of Qaryah networks to better reach seniors and residents:

- In District West, QaryahKITA has been rolled out at five locations, extending beyond rental flats to serve the broader community.
- Later this year, Masjid Hasanah @ Teban Gardens will pilot Qaryah Emas, connecting seniors to their local mosque, strengthening their social networks and organising activities relevant to their needs.
- In District North, Qaryahs in Yishun and Woodlands will reach out to seniors living alone and bring them to mosques to participate in Santunan Emas programmes at Masjid Darul Makmur, Masjid An-Nur and Masjid Yusof Ishak.
