About Islamic Legacy Planning Events

Annex A

The heartland series was launched to bring Islamic Legacy Planning (ILP) services directly to the community, as more Malay/Muslim families today hold assets such as HDB flats, CPF savings and insurance policies, while some continue to face inheritance disputes and uncertainty over *Faraid* due to limited awareness or the lack of early planning.

At the signature ILPV 2026 held at Singapore Expo on 26 September 2026, MUIS announced three initiatives to make Islamic legacy planning easier for Muslim families to understand, navigate and act on:

a. The enhanced edition of *The Final Amanah*;
b. The expansion of the ILP Masterclass beyond the asatizah sector to include professionals across the wider legacy planning community; and
c. The development of a new ILP Service Partners Network to bring together trusted legal practitioners and other partners to support families in completing their legacy plans, including the completion of *wasiat*.

Members of the public can access Islamic legacy planning resources and information on upcoming engagements at go.gov.sg/ilpv-info.
