

ABOUT THE CRL STEERING COMMITTEE

The rapidly evolving social and technological landscape presents both challenges and opportunities for Singapore's Muslim community. MUIS recognises the need for a coordinated strategic approach to community religious life initiatives, and has established the CRL Steering Committee. The committee will focus on youth and seniors, before expanding to children, families, and underserved groups.

2 The CRL Steering Committee provides strategic direction for CRL initiatives, ensuring alignment with broader strategic goals whilst guiding innovative approaches to address religious sector challenges. The committee also oversees CRL framework implementation and fosters a cohesive mosque sector through collaboration and knowledge sharing. This ensures that all initiatives align with MUIS' objectives as well as the broader national context, whilst providing closer guidance on cascading strategic direction into community programme design, delivery, and capability building of religious personnel.

3 The CRL Steering Committee members are as follows:
