

Implementation and Scale Up of Hospital-at-Home

Join us for **Session 3** of the Community of Practice (CoP) in Implementation Science (IS) for Geriatric Medicine as we explore **how IS principles were applied to support the design, adoption, and scale-up of NUHS@Home, a hospital-at-home model.**

Participants can expect to gain insights into key implementation challenges, strategies employed to engage stakeholders, and lessons learnt in delivering acute care safely and effectively in patients' homes.

We are also honoured to be joined by **Professor Sharon Straus, GERI's Adjunct Scientist and Implementation Sciences Expert** for Session 3 of our Community of Practice.

PRESENTERS

Adj Asst Prof Stephanie Ko
Consultant
Division of Advanced Internal Medicine
National University Hospital & NUHS@Home

Dr Jeremy Teng Jun Wei
Associate Consultant
Healthy Ageing Programme
Alexandra Hospital & NUHS@Home

WHY JOIN OUR COP?

- Build **practical IS knowledge and skills**
- **Learn from leading experts and real-world experience**
- **Collaborate** across Singapore's healthcare clusters

WHAT TO EXPECT?

- Hear **real-world IS application examples** from fellow clinicians and researchers
- Join open discussions with practitioners and researchers who may be facing the same challenges as you

Our quarterly series covers topics in:

- **Preventive and care models** in geriatrics
- **Digital health/AI applications** in clinical practice to transform research insights into meaningful clinical impact

In collaboration with
