

BATCH SONG '24

ONE HEART, ONE VOICE

At the edge of a mountain
A cliff by the sea
Silhouettes of no regrets
An endless horizon before me

Streetlights form a tapestry
The picture of intricacy
Our hands reach to high above
Starry skies surrounding me

And if I feel
Alone, afraid

I fix my gaze on a brand new day
And I know what's here to stay

My friends all sing it with me
One heart one voice
This home is where we'll be
We're here by choice
Together we'll keep shining so brightly
and you'll see
We make a beautiful noise

One day we'll take flight and soar
With unbridled wings
I'll chart my path, of the unexplored
Find my song to sing

So wherever our future lies
It's more than meets the eye
As long as my friends are by my side
I can keep flying high

And as we grow
Standing tall
Our arms linked in an endless wall
The strength of a thousand will never fall

I hear them sing it with me
One heart one voice
This home is where we'll be
We're here by choice
Together we'll keep shining so brightly and
you'll see
We make a beautiful noise
