

# kaki

Enhancing care connectivity and information management

## WHAT IS KAKI?

A digital repository for residents, caregivers and providers featuring:

Direct chat

File management

Resident care profile

## WHY DID WE DEVELOP KAKI?

- To address fragmented care coordination
- To reduce communication gaps in community healthcare

## HOW CAN KAKI HELP US?

By supporting residents to become active participants in their health journey, we can foster a more engaged and collaborative approach to community healthcare.

## VOICES FROM KAKI USERS

### Shortens feedback loops

"It's very useful to have the capability to chat, helps make **communication clearer and faster.**"  
*Therapist*

### Streamlines information access

"Kaki helps everything to be in **one place.** Whatever homework, **we know to find it here.**"  
*Resident*

### Reduces administrative burden

"**Saves my time in finding info,** now sometimes PDF, hardcopy. Then we misplace it."  
*Caregiver*

## JOIN US IN EMPOWERING RESIDENTS

We invite partners and residents to join us as users on Kaki. Share your feedback and contribute to creating a more connected and supportive care network for everyone!
