General Information

First Week of School

Smoothening the transition to Primary 1

When your child enters primary school, their experience will include:

New friends and teachers

New routines

New learning environments

Smoothening the transition to Primary 1

1. Transition is the process in which a child moves into a new environment

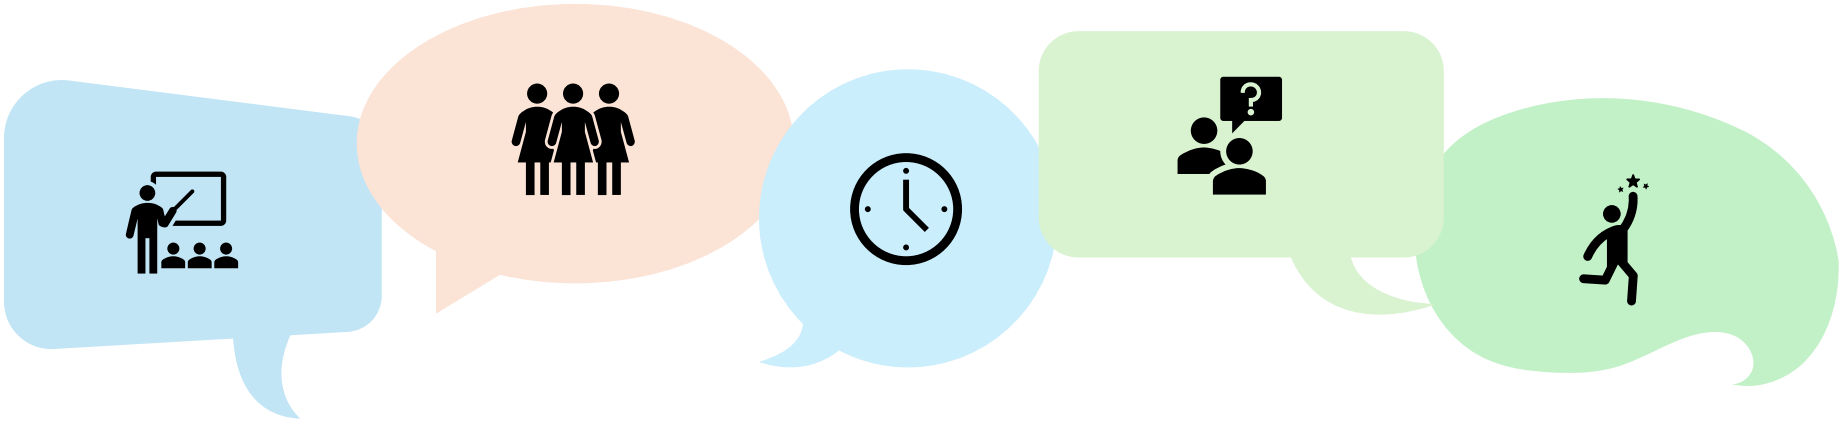

2. When moving from pre-school to primary, a child will have to adapt to unfamiliar setting and routines

When your child has transited well, he/she will:

- Feel safe and comfortable in the new environment
- Be able to manage daily challenges
- Be able reach out to teachers and/ or peers for support when needed
- Be more ready to learn

How can you prepare your child for Primary 1?

You can start talking to your child about the following:

Adjusting to a larger learning environment

Interacting with more peers and teachers

Adapting to longer school hours and new routines

Taking the initiative to ask for help

Becoming more independent and responsible

Try these conversation starters:

I had a good day at work today. *[Parent to share what they enjoyed]* How was your day? Which part did you enjoy the most?

Let's both remember someone that we met today who did a kind deed for us?

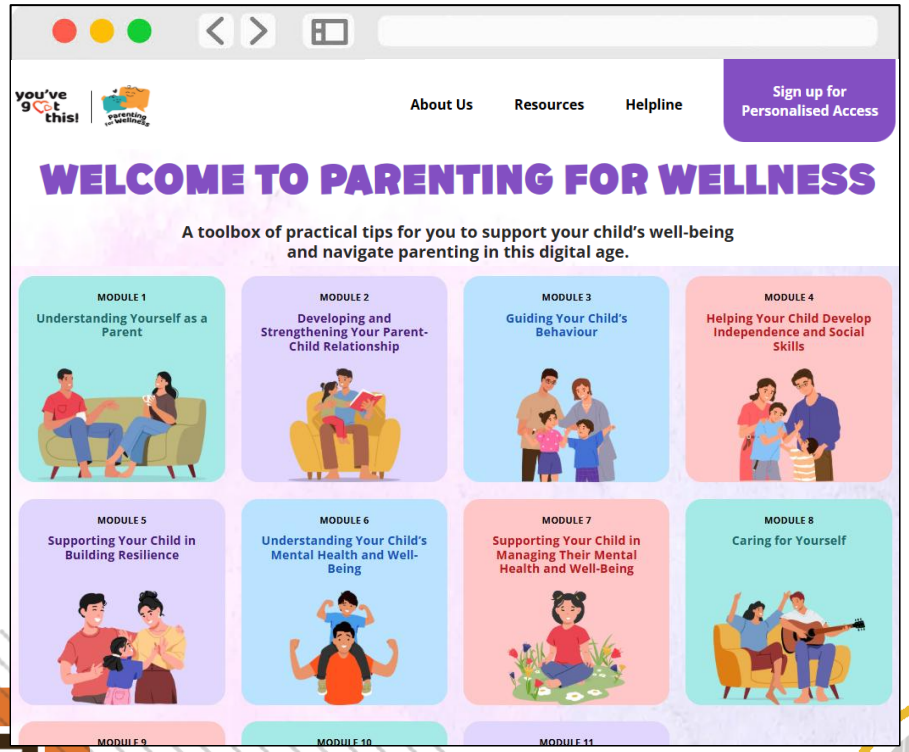

I learnt something new at work today. I am sure you did too. Can we teach each other what we learnt?

How can you prepare your child for Primary 1?
