Dear Parents and Guardians,

**Traffic Surveillance Outside School Premises for Land Transport Authority (LTA)'s Green Commutes Challenge**

We are writing to inform you about an upcoming traffic survey which we will be conducting outside the school as part of our research on traffic patterns around schools for our Green Commutes Challenge initiative.

The Green Commutes Challenge aims to promote sustainable transportation options among students and improve traffic congestion around schools during peak hours. To measure the effectiveness of the programme, we will need to gather accurate data on traffic patterns before the challenge and during the challenge. Data will be collected on four days - two days pre-challenge and two days during the challenge, both during morning drop-off time.

Key details of traffic survey:

- Date: 30 June, 1 July, 14 July, 15 July 2026
- Time: 06.30am to 08.30am
- Location: Road along NJC Drive and Hillcrest Road, outside of Raffles Girls' Primary School

Our traffic survey will involve using video analytics to tabulate the number of vehicles exiting the school during morning drop-off.

We assure you that this surveillance is for statistical purposes only. No photos of people or personal information will be collected, and the privacy of all individuals will be strictly protected in accordance with our data protection policies.

The information gathered will be invaluable in helping us develop targeted strategies to enhance safety and encourage greener commutes for the school community.

We appreciate your understanding and cooperation in this important initiative.

Thank you.

Regards,

**Tan Wee Ting | Assistant Manager, School Outreach, Strategic Engagement & Collaborations**
