Dear Parent/Guardian,

1. Principal's Message:

End-of-Year 2026 Letter to Parents/Guardians

As we bring another meaningful school year to a close, I would like to express my heartfelt appreciation to all parents and guardians for your trust, encouragement and steadfast partnership throughout 2026. Your support has been instrumental in enabling us to nurture our students as "Learners who Learn for Life and Leaders who Light the Way".

As we reflect on the year that has passed, we are also excited about what lies ahead. 2027 will be an especially significant year for Bedok View Secondary School as we celebrate our 50th anniversary, BV50. This will be a celebration not only of our school, but also of the many students, staff, alumni, parents and community partners who have contributed to the Bedok View story over the past five decades. We are lining up a series of commemorative events and activities to bring the BV community together and create fond memories of BV50. We look forward to welcoming you to the various BV50 celebrations. More details will be shared with you before the new school year begins.

As we bring 2026 to a close, I thank you once again for walking alongside us and for the trust you place in the school. May the year-end break be a meaningful time for our students and families to rest, recharge and reconnect.

We look forward to welcoming our Bedok Viewans back in 2027, ready to rise above, look ahead and begin an exciting new chapter together as we celebrate BV50!

Parents and guardians are required to submit a travel declaration only if your child will be travelling overseas. No action is needed if your child is not travelling. When planning your trip, please visit the ICA website (https://www.ica.gov.sg/enter-transit-depart) for the latest information and updates. Singapore Citizens are also encouraged to register their travel plans with MFA at https://go.gov.sg/eregister for emergency contact purposes while abroad.

f) Supporting Student Well-Being

Grow Well SG is a national health promotion strategy to enhance preventive care and inculcate healthier lifestyles in children and adolescents. This multi-ministry strategy aims to promote the health and well-being of children. For better health, children should eat, sleep, learn and exercise well throughout the year, including during the school holidays. Helping your child build a healthy digital diet starts with the habits they develop along the way. As a parent, you play a powerful role in shaping your child's digital journey and you don't have to do it alone. The Digital for Life (DfL) portal offers an array of bite-sized resources to equip parents and caregivers with the skills and knowledge to guide their children's online interactions and support their digital well-being. From setting healthy boundaries to encouraging responsible sharing and responding to online risks, these resources can help you guide your child towards safer and healthier digital habits.
