

Durvalumab

for limited-stage small-cell lung cancer

Technology Guidance from the MOH Drug Advisory Committee

Guidance Recommendations

The Ministry of Health's Drug Advisory Committee has not recommended durvalumab consolidation therapy for inclusion on the MOH List of Subsidised Drugs for treatment of patients with limited-stage small-cell lung cancer whose disease has not progressed following platinum-based chemoradiation. The decision was due to the pricing and price-volume arrangement proposed by the company.

Clinical indication, subsidy class and MediShield Life claims eligibility for durvalumab are provided in the Annex.

ANNEX

Recommendations by the MOH Drug Advisory Committee

Drug preparation	Company-proposed clinical indication	Subsidy class (implementation date)	Eligible for MediShield Life claims (implementation date)
Durvalumab 120 mg/2.4 mL and 500 mg/10 mL concentrate for solution for infusion	Treatment of patients with limited-stage small-cell lung cancer whose disease has not progressed following platinum-based chemoradiation therapy	Not recommended for subsidy	No

 Agency for Care Effectiveness - ACE
  Agency for Care Effectiveness (ACE)

About the Agency

The Agency for Care Effectiveness (ACE) was established by the Ministry of Health (Singapore) to drive better decision-making in healthcare through health technology assessment (HTA), clinical guidance, and education.

As the national HTA agency, ACE conducts evaluations to inform government funding decisions for treatments, diagnostic tests and vaccines, and produces guidance for public hospitals and institutions in Singapore.

The guidance is not, and should not be regarded as, a substitute for professional or medical advice. Please seek the advice of a qualified healthcare professional about any medical condition. The responsibility for making decisions appropriate to the circumstances of the individual patient remains with the healthcare professional.
