Dear Parents of our 2027 Primary 1 Students,

Greetings, and welcome to the Kong Hwa family!

Established in 1953, Kong Hwa School is one of six schools founded by the Singapore Hokkien Huay Kuan.

Our motto, **“Sincerity and Perseverance”**, underpins our belief of moulding individuals of exemplary character. We aspire for our Kong Hwaians to embody our motto through their **“Sincerity in Being and Perseverance in Doing”**. The importance of nurturing sincerity in our children cannot be overstated. A child who is sincere naturally earns the trust and respect of others. At the same time, perseverance is just as important for their growth. With resilience, our children learn not to give up easily when faced with challenges, but to press on with determination and see things through to the end.

When the new school year begins, your child will step into a fresh learning environment and embark on an exciting new chapter in their primary school journey. In the initial stage, some children may encounter adjustment difficulties. This is a normal occurrence, and there is no need to worry. To help your child integrate more smoothly and quickly into primary school life, we sincerely hope that you can support in the following areas:

(1) Helping Your Child Develop Good Daily Habits

- Encourage your child to establish a regular routine with consistent rest and activity.
- Guide them to take care of themselves by tidying up, eating independently, dressing neatly, and looking after their own belongings.
- Nurture good hygiene habits, such as using the toilet properly and washing hands afterward.
- Teach them to show courtesy and respect towards teachers, classmates, school rules, and basic social etiquette.
- Help them understand the importance of order, for example, queuing patiently and walking quietly in shared spaces.

(2) Helping Your Child Develop a Positive Attitude Towards Learning

- Foster the mindset: “I am responsible for my own learning.”
- Teach them to organize their school bag and stationery neatly.
- Encourage them to listen attentively in class and to ask questions when they need clarification.
- Support them in completing homework seriously, responsibly, and on time.
- Cultivate a love for reading and help them find joy in the process of learning.

新加坡福建會館屬校
Singapore Hokkien Huay Kuan Affiliated School

By helping our children to joyfully adapt to primary school life, discover the joy of learning, and develop positive attitudes and healthy daily habits, we are laying a strong foundation for their future independence and holistic growth.

Through a strong **home–school partnership**, let us walk this journey side by side. With your support, we can nurture in our children good habits and strong character from an early age, so they may grow into students who shine in both character and learning.

As we prepare to welcome our newest Kong Hwaians, I would also like to share that, after six meaningful and fulfilling years at Kong Hwa School, I will be leaving to take on a new appointment at the Schools Division in Ministry of Education with effect from 15 December 2026.

Kong Hwa has been more than just a place of work to me. Over these six years, it has become a community close to my heart, filled with wonderful people, cherished memories and meaningful relationships. While saying goodbye is never easy, I leave with a heart full of gratitude for the privilege of serving this school, and with confidence in the people and enduring values that make Kong Hwa so special.

I am very pleased to share that Mr Koe Ee Tiong, current principal of Si Ling Primary School, will take over as the next principal of Kong Hwa School with effect from 15 December 2026. I have full confidence that he will lead the school with commitment and care, while bringing his own expertise, perspectives and aspirations to take Kong Hwa forward.

Once again, welcome to our Kong Hwa Family!

Thank you.

Mr Poon Siow Leng Raymond
Principal
