

[L078/2026]

23 September 2026

Dear P6 Parents / Guardians,

P6 POST PSLE ACTIVITIES

1. To better prepare our P6 students for their future endeavours and ensure learning is meaningful and enriching for them during the post-PSLE period, the school has planned a series of in and out of school activities to engage and enrich them. Please refer to Annex A for details of the activities.
2. Some key highlights of the activities include
 - a. An interdisciplinary learning journey to Gardens by the Bay to learn about sustainability and to the Science Centre to view One Ocean exhibition;
 - b. A 3-day workshop for students to learn more about what Artificial Intelligence is;
 - c. An exposure to the sport of bowling through the "Bowling for Beginners" Programme; and
 - d. A Values-In-Action (VIA) collaborative project with Kaki Bukit Community Centre to reach out to the families with higher needs around the neighbourhood.
3. All activities will take place during curriculum time, with the exception of P6 Celebration Day. The Celebration Day, which will be held on 16 Nov 2026 (Monday) from 2.00pm to 4.30pm, is a time set aside for them to celebrate together with their teachers and as a cohort. All P6 students will only report to school at 2.00pm as there will be no lesson on that day. More information will be shared nearer the date.
4. Please contact Mr Ng Siong Boon, Year Head/Upper Primary at Tel: 6449 0121 if you have any queries.

Yours-in-Education

A vibrant connected community that aspires, learns and leads

Annex A

	Activity	Dates
1.	Applied Learning Programme Each class will go through a 3-day lesson (which will be conducted in 2 segments) that includes activities for students to experience Artificial Intelligence (AI). Besides, the lesson will cover key components that make up AI, namely, Computer Vision and Machine Learning. Students will also learn how AI is used in our daily lives.	5-16 Oct, 26 Oct – 6 Nov
2.	Learning Journey to Science Centre: One Ocean Exhibition Across 12 modules, students will journey through ocean ecosystems and engage with hands-on content on biodiversity, climate change, plastic pollution, conservation, and real-world research technologies—making learning both tangible and relevant. The exhibition is aligned with key curriculum areas and supports inquiry-based, interdisciplinary teaching.	6 & 8 Oct
3.	Education Career Guidance: Secondary School Outreach Talk A series of talks by selected secondary schools (e.g. Anglican High School, Bedok Green Secondary School). These secondary schools will introduce their key programmes and CCA. Through the talks, students should shortlist the secondary schools of their choice and make informed choices when selecting secondary schools during the S1 posting exercise.	9 Oct, 19-23 Oct, 11-13 Nov
4.	Drumming Workshop Students will experience the wonders of STOMP percussion and collaborate in groups to develop their own rhythmic compositions using everyday items including bowls, pails, shakers and drumsticks.	19-21 Oct
5.	Learning Journey to Gardens by the Bay: Race to Sustainability! Students will be participating in the interschool <i>Race to Sustainability!</i> to challenge their teamwork skills to explore the Gardens to solve puzzles and complete quizzes to understand what Singapore has been doing to build a sustainable future, develop greater awareness of the impact of climate change and the sustainability strategies employed by the Gardens and discover the importance and value of conservation and plant diversity.	21 & 22 Oct
6.	Learning for Life Programme – Bowling for Beginners P6 students will learn basic bowling techniques, bowling etiquette, and safety in bowling, in a 2h session with qualified instructors.	26 & 28 Oct
7.	VIA - serving the community To inculcate socially responsible citizens who contribute meaningfully to the community, students will prepare food hampers, to be delivered to residents in need of support, who are staying near the school. The project is in collaboration with Kaki Bukit CC.	2 Nov
8.	Financial Literacy The program aimed to provide opportunities for students to apply various Math concepts learned in the curriculum, to help students acquire basic money management skills such as budgeting and equip them with habits and attitudes of financial literacy.	11 Nov
9.	Celebration Day This is an occasion for the students to mingle in a casual mood, to celebrate the closing of their chapter in primary school education. We hope that our students continue to live up to our school motto: 'Light up and Shine', have the will to be the light that shines for themselves and others as they journey on!	16 Nov
