VENEPUNCTURE AND PERIPHERAL IV CANNULATION (VPIC)

Provider Activity ID: NVIC01

Overview

This NNA-accredited course is designed to equip nurses working at clinical ground with the essential knowledge and skills on venepuncture and peripheral intravenous (IV) cannulation. Upon successful completion of the E-learning modules by attaining $\geq 80\%$ from the quiz, participants will join an interactive face-to-face session with more discussions and simulated practice. Participants will be able to acquire knowledge and develop skill competency in performing safe cannulation and venepuncture. As this is an NNA-accredited programme, the course is also open to external participants from all healthcare institutions.

Objectives

- Understand the basic anatomy of the upper extremity veins used in IV cannulation and venepuncture
- State the contraindications of IV cannulation and venepuncture
- List the safety aspects relating to IV cannulation and venepuncture
- Explain the complications of IV cannulation and venepuncture
- Discuss the nursing management in caring for patients requiring IV cannulation and venepuncture
- Demonstrate the skill competency in performing IV cannulation and venepuncture in simulated practice

Outline

- Anatomy of blood vessels
- Selection of veins in arm and hands
- Cannulation devices and system
- Selection of cannula
- Performing cannulation
- Complications of cannulation and management
- Safety concerns in venepuncture
- Performing venepuncture

Raffles Hospital Private Limited is accredited with distinction as a provider of nursing continuing professional development by the American Nurses Credentialing Center's Commission on Accreditation

RafflesHealthcareInstitute

Target Audience

Registered Nurses / Enrolled Nurses

Course Duration

10 Hours (Blended learning)

- Enduring (3 hours)
- Live session (4 hours)
- On-the Job Training (3 hours)

Trainer's Profile

Senior Nurse Educator, Nurse Educator, Acting Nurse Educator and Clinical Educators

Teaching Methodology

- E-learning
- Classroom facilitation
- Simulated practice
- Workplace based training (On-the-job training)

Certification

E-Certificate of Competence will be awarded to participants who have successfully completed the course requirements.

Venue

TBC (will announce in course confirmation email)
