

Intra-Aortic Balloon Counterpulsation (IABP) Therapy

Course Description:

The counterpulsation therapy workshop introduces the IABP therapy concept with a strong focus in cardiac cycle, the IABP equipment, nursing role and responsibilities when caring for a patient undergoing the therapy. Practical session includes IABP timing evaluation and adjustments strategies (semi-auto mode). The workshop concludes with timing exercises and case studies and identifying complications and troubleshooting.

Learning Outcomes:

- Identify 3 indications for IABP therapy
- Identify 3 benefits and 3 complications of IABP therapy
- Perform care of patients with an inserted IAB catheter
- Coordinate transporting of IABP patients to local cardiovascular facility
