

Life Support Course for Nurse Instructors

Course Description:

The LSCN instructor course aims to equip experienced providers in instructional strategies to educate and assess healthcare professionals in performing life support skills in a structured and safe manner. Trainee instructors are expected to demonstrate good knowledge of LSCN content and algorithm management; perform skills station set-up to ensure an effective learning environment; facilitate practical skills coaching and provide constructive feedback for skills improvement; and conduct skills/station assessment in a non-threatening and standardised manner.

Learning Outcomes:

- Present LSCN content to learners effectively
- Conduct skills station demonstration through good knowledge of algorithm sequence
- Safe handling of teaching equipment, disinfection and dismantling of manikins
