# Symposium Highlights

Discover how simulation drives quality improvement through a full day of inspiring keynote sessions with case examples.

## Key Themes

---

- Advancing translational simulation through theory, data and impact
- Building and leading effective simulation programmes
- Improving clinical outcomes, including stroke care
- Shaping high-performing teams and systems
- Tackling system-level challenges, including occupational violence

## Simulation in Practice Gallery

---

Be part of the walk-through digital showcase of how simulation transforms clinical care, team performance, and systems, designed to spark learning and conversation.

More details on submission to be announced.

# Masterclass Highlights

Deepen your expertise through hands-on, half-day Masterclass workshops focused on strategy and practical skills.

## Masterclass Topics

---

- Visually Enhanced Mental Simulation
