

9th Asia Pacific Nurses Convention

Empowering Nurses: Leading the Future of Healthcare

25th June - 27th June 2026

SINGAPORE EXPO CONVENTION HALL, SINGAPORE

Programme

25th June 2026

Session A: Emerging Trends – Research, Evidence-based Practice, Innovative Delivery in Digital Age

Explore the latest research and evidence-based practices shaping nursing. Topics include AI in healthcare, telehealth integration, predictive analytics for patient care, and digital tools for workflow optimisation.

Session B: Sustainability and Global Health

Address global health challenges and sustainable healthcare practices. Discussions will cover climate change impacts on health, green hospital initiatives, resource optimisation strategies, and collaborative frameworks for global health equity.

26th June 2026

Session C: Leadership & Learning Health Systems

Understand the role of nursing leadership in creating adaptive learning health systems. Topics include strategic management, organisational excellence, leadership development, and fostering cultures of continuous improvement.

Session D: Advancing Nursing Practice and Person-Centred Care

Focus on innovations that enhance person-centred care. Includes advanced clinical skills, holistic care approaches, integration of patient preferences, and leveraging technology for personalised care.

27th June 2026
