

Essentials of Wound & Ostomy Management Course

Professional Training for
Wound & Ostomy Care

This course is led by experienced WOCNs who provide practical insights and hands-on learning experiences on wound and ostomy care for various settings, including acute and long-term care facilities. The course includes 4 self-directed modules, each ending with an assessment and a practicum to reinforce the skills in wound and ostomy management. A Certification of Completion will be issued upon completion of each module.
