

# Clinical Preceptorship Course

## Overview

This course aims to provide nurses with the essential knowledge, skills, and attitude for the role of a clinical preceptor for nursing students from pre-registration or pre-enrolment courses.

### Bridge Theory and Practice

Gain essential skills to guide nursing students through real-world patient care scenarios.

### Blended Learning Excellence

16-hour program: classroom facilitation, e-learning, and hands-on clinical practice.

### Core Competencies Developed

Master adult learning principles, constructive feedback, and professional role modeling.

## Registration & Essential Details

### Eligibility Requirements

Open to Registered and Enrolled Nurses with minimum 2 years' clinical experience.

### Course Fee

Price is prior to GST; includes a Certificate of Competence upon completion.
