To the Graduating Class of 2026,

As you prepare to sit for the PSLE, remember that you have already **come a long way**.

Over the years, you have learnt, grown, overcome challenges and become **stronger** with every experience.

In the days ahead, **focus on what you can control**. Prepare well, stay calm and take each paper one step at a time. When you encounter a difficult question, do not be discouraged. Pause, think, and try again. Trust in what you have learnt and in the hard work you have put in.

At the same time, remember that the PSLE is **only one part of your journey**. What matters more is the good habits you have picked up and the person you are becoming.

Your teachers and everyone at North View Primary School are cheering you on. **We believe in you** and are proud of how far you have come.

So, be confident and give each paper your very best. Believe in yourself, stay focused, and finish this journey strong. **All the best!** ✨

Dear P6 Students,

As you prepare for the upcoming PSLE, remember to believe in yourselves and give it your very best. Stay focused, keep calm, and trust in all the hard work and effort you have put in.

Do your best in every paper, one question at a time. You are ready — go forward with confidence and make yourselves proud!

All the best for your PSLE!

To 6C - Mr Xie pull out class

PSLE is almost here. I know Mathematics has not always been easy for some of you, but I want you to remember how far you have come.

Every lesson you attended, every question you struggled through, every mistake you corrected, all of it has made you stronger.

When you enter the examination hall, don't worry about what you cannot control. Read carefully. Annotate. Draw your models. Show your working. Check your answers. Most importantly, don't give up on a question too quickly.

You do not need to be perfect. You just need to fight for every mark you can get. One mark at a time. One question at a time.

Believe in the work you have put in. Stay calm, think clearly and keep going until the very last minute. I believe you can do better than you think. Now it is your turn to believe it too.

All the best for PSLE!

— Mr Xie Jialun

Dear 6 Joy,

PSLE is almost here. You have worked hard, challenged yourselves and shown me just how much you are capable of.

For many of you, the challenge now is not whether you know the Mathematics. It is whether you can stay calm, disciplined and precise enough to show what you know when it matters.

Read every question carefully. Don't rush because something looks easy. Don't panic because something looks unfamiliar. Think. Reason. Check. If a question is difficult, trust our training and break it down.

Remember, the tough questions are not there to scare you. They are there to give you an opportunity to show how well you can think for you AL1s.

You have prepared for this. Walk into the examination hall with confidence, but never complacency. Fight for every mark, minimise every careless mistakes, and finish knowing that you gave your absolute best.

I am already proud of how far you have come. Now go and show yourselves what you are capable of. Stay sharp. Stay calm. Finish strong.

All the best!, 6 Joy

— Mr Xie Jialun

Dear 6 Courage,

Although I may not have had the opportunity to teach many of you personally, I have heard you grow and work hard through your teachers' voices. As your PSLE approaches, I just want to wish every one of you the very best.

You have spent six years preparing for this milestone. Trust what your teachers have taught you, trust the effort you have put in, and most importantly, trust yourself.

For Mathematics, take it one question at a time. Read carefully, annotate, show your working and check whenever you can. If you meet a difficult question, don't let it affect the rest of your paper. Stay calm, move on and come back to it later. Every mark counts.

PSLE is an opportunity for you to show what you have learnt, but it does not define everything that you are capable of.

So walk into the examination hall with confidence, give it everything you have, and walk out knowing that you did your best.

Stay calm. Stay focused. Keep fighting till the very end.

All the best, 6 Courage! I'll be rooting for all of you.

— Mr Xie Jialun

A Note to Our Primary 6 Graduates

Dear Primary 6 students,

As you prepare for your PSLE, remember that this is more than just an examination, it is a wonderful milestone in your journey of growing up. You have worked hard, learned many things, faced challenges, and come a long way. Be proud of yourself for how far you have come.

Life will bring many obstacles and difficult moments. There will be times when things do not go the way you hope, and you may feel like giving up. But always remember: success is not about having a life without obstacles. It is about learning how to face those obstacles, overcome them, and keep moving forward."

— Mdm Lim

A Note to Our Primary 6 Graduates (continued)

"Have a growth mindset. Instead of saying, "I can't do this," tell yourself, "I can't do this yet, but I can learn." Every mistake is an opportunity to learn, every challenge is a chance to become stronger, and every setback can teach you something valuable.

As you sit for your PSLE, do your very best, stay calm, believe in yourself, and remember that one examination does not define who you are or what you can become. Your character, kindness, resilience, courage and willingness to learn will carry you much further in life.

Take this milestone as the beginning of a new chapter. Walk forward with confidence, face challenges with courage, and always keep a positive heart and a curious mind.

Believe in yourself. Embrace challenges. Learn from mistakes. Keep growing. Never give up.

We are proud of you, and we wish you all the very best for your PSLE and for the exciting journey ahead!

Keep going, your best chapters are still waiting to be written."
