

EXPERIENCING WGPS

LEARNING FESTIVAL

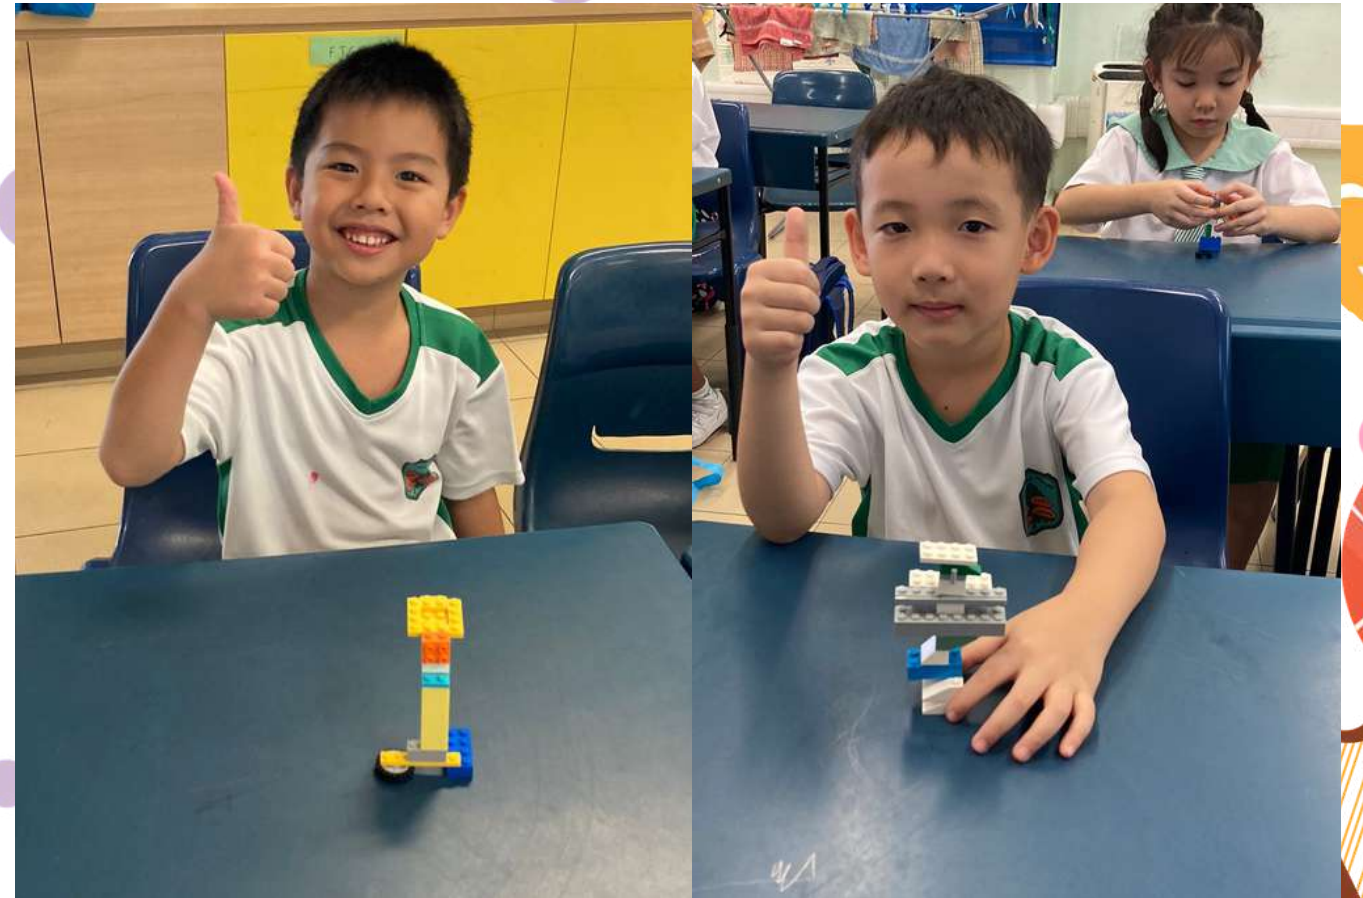

Our Primary 1 Woodgrovians had an exciting start to Term 3 with a range of engaging activities organised as part of the Learning Festival. They decorated their bag tags with inspiring Growth Mindset quotes and learned how to bowl through the Primary 1 Sports Education Programme (SEP). The students also showcased their creativity by constructing Lego structures during the Makerspace Activity and deepened their understanding of Biodiversity. As part of their Social Studies and PAL curriculum, the students explored the Woodgrove Estate, familiarizing themselves with the amenities within the Woodgrove community, gaining a better understanding of how the community play a role in our lives. These diverse experiences have enriched the educational journey of our Primary 1 students at Woodgrove, fostering a deeper appreciation for their learning, from classroom to the community.
