

EXPERIENCING WGPS

LEARNING FESTIVAL

Our Primary 1 Woodgrovians kicked off Term 3 with an exciting array of activities as part of the Learning Festival. They grooved to Zumba and strengthened their sense of balance through a mini-trampoline activity under the Primary 1 Sports Education Programme (SEP). The students also showcased their creativity during Makerspace by constructing Lego structures, creating their very own kendama using recycled plastic bottles, and deepening their understanding of biodiversity. As part of their Social Studies and Programme for Active Learning (PAL) curriculum, they explored the Woodgrove Estate, familiarising themselves with local amenities and gaining meaningful insights into the important role the community plays in their daily lives.
