

EXPERIENCING WGPS LEARNING FESTIVAL

The Primary 3 Woodgrovians returned to school to three days filled with exciting activities organised as part of the Learning Festival. Our Woodgrovians started off the Learning Festival by designing and writing Growth Mindset quotes on wooden planes for them to take home as a reminder of the theme for this year 'Courage to SOAR'. They also get to go on a learning journey to Science Centre, experiencing Makerspace activity by making recyclable pots, origami making and learning to shoot with bows and arrows through the Archery lessons as part of their Sports Enrichment Programme!
